ALLIES HOLD EVERYWHERE

BILLION IS PASSED IN DRIVE FOR LOAN

Of Nation's Total New England Has Subscribed to $100,000,000 of Bonds

The billion mark has been passed by the Liberty Loan drive, for the country as a whole, and New England is keeping well up with the procession, for the records today show subscriptions for this section of $100,209,000. The New England district passed the $100,000,000 mark at almost the same time that the country reached ten times that figure.

Nine towns reported today that they had oversubscribed their quotas. They include Berkeley, Ludlow and Princeton in this State, Bradford, Sutton and Exeter in New Hampshire, and Rockland, Palermo and Waterford in Maine. Exeter's quota of $108,000 has been exceeded by $13,000.

Through the nation, the amount of subscriptions reported to Federal reserve banks is $1,059,558,000. The amount is encouraging, the Liberty Loan directors say, but not entirely satisfactory because the daily aver-

"LIBERTY SHOE" TO CUT DOWN HIGH COST

Washington, April 18.—There is a broad possibility, it was learned today, of the government introducing the Liberty Shoe. Actuated by patriotic moves, manufacturers have submitted specifications to Washington for a strong, durable shoe, appealing in style and quality, which can be sold at a reasonable profit at prices paid before the war. The War Industries Board contends there is no shortage of leather and the prices now charged for shoes are not based upon a scarcity of materials.

CANADA MAY SOON TAKE BOYS OF 19 IN DRAFT

Ottawa, Ont., April 18.—Radical changes are expected in the conscription act of the Dominion following a secret session of Parliament held here yesterday and an account of which meeting was made public here today. The age limit will probably be lowered from 24 years to 19 years by an order in council expected soon.

All editions of the Boston AMERICAN will be published tomorrow, Patriots' Day.

MILNER IS NEW WAR CHIEF FOR ENGLAND

Succeeds Lord Derby in Cabinet; Austen Chamberlain Also Gets a Portfolio

By International News Service.

London, April 18.—Viscount Milner has been made minister of war, succeeding the Earl of Derby, according to an official announcement made today.

It was also announced that Austen Chamberlain, who was formerly secretary for India, has taken a place in the war cabinet.

The Earl of Derby succeeds Lord Bertie as British ambassador to Paris.

Viscount Milner, who succeeds Lord

NEW NAVY YARD WAGE SCALE IN EFFECT MAY 1

Washington, April 18.—The new navy yard wage scale, recently adopted after a series of conferences between the Navy Department and the labor adjustment board, will be put into effect May 1, it was announced today. The scale gives the trade an average wage of $5.75 for an eight-hour day. With overtime the average will be about $7.

SECRETARY DANIELS GUEST OF NEW HAVEN

New Haven, April 18.—Josephus Daniels, Secretary of the Navy, arrived in this city early today to spend the day as the guest of the city and of Yale University. He was accompanied by Mrs. Daniels. They breakfasted with Mrs. Alexander Troup after which, with Mayor Fitzgerald and other local officials the secretary visited the local Naval Base No. 1, which includes the Yale boathouse, and other establishments in the harbor, housing the Naval Reserves. Mr. Daniels was escorted on the tour of inspection by Lieutenant J. K. Murphy, the officer in charge of the base.

At noon the secretary was taken for a tour of inspection of the plant of the Winchester Repeating Arms Company a d spoke to the employes on the Liberty Loan. He was later the guest of the local chamber at a luncheon. During the afternoon the secretary was the guest of Yale.

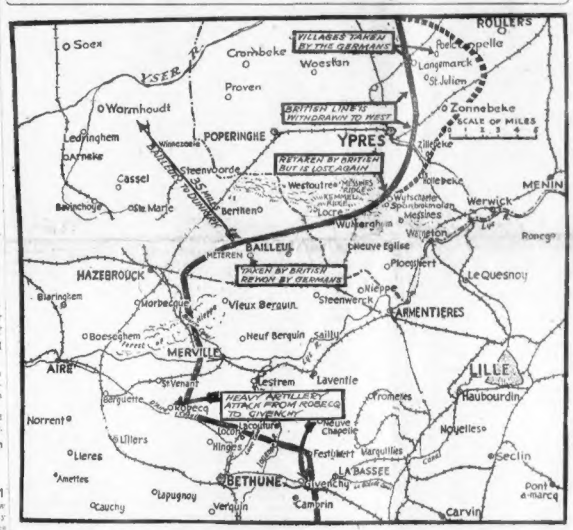
FOLLOW THE BIG BATTLE FROM THIS MAP



Here is the new front of the German offensive in Flanders and France as indicated by the latest news from official sources. Today's dispatches point to a change in the drive by the Huns to the British rail head at Bethune and an apparent endeavor to widen the latest salient at its southern end. The boxes on the map tell the latest developments in the 29th day of the fighting.

HUNS SHIFT ATTACK TO BETHUNE SECTOR

Again the German war machine is checked in the midst of one of its powerful rushes. The British, with their "backs to the wall" at Ypres, hold firm. The encircling Hun forces made no further gain toward the town in the night, according to today's official report from London. The British War Office announced "no overnight change on the British front." A shift in the German drive to the southern part of the French Flanders front is indicated by increased artillery fire from Givenchy to east of Robecq. Observers regard this as preparatory to an attempt against the British rail-head at Bethune on La Basse canal, about 24 miles southwest of Ypres and 16 miles northwest of Arras. It has double strategic value, both from a transportation standpoint and because it is at the edge of a series of heights.

The situation at Ypres, in a nutshell, is summed up by Major-General F B. Maurice of the London War Office in this statement: "The British Army is fighting a Waterloo, while Blucher is marching to the battlefield. What is has happened to Blucher? What has become of the French reserves?"

General Maurice said this upon returning from France to London. Meanwhile Field Marshal Haig, from the actual battleground, has reported the arrival of French troops at the British front. Haig gave no details, however, so the question still remained whether the first reinforcements at hand were enough to sustain the battered British lines.

Latest reports show that the Hun pincers are all but cracking the Ypres nut which has so long resisted them. The German lines, now ex-

Boston Baseball Fans Swell Camp Devens Fund by $357.39

Boston baseball fans, true to form, came through nobly for the Boston AMERICAN'S Camp Devens Baseball Fund and at a collection taken up at Fenway Park boosted the fund very nearly over the top. The total of the collection was $357.39.

The collection was made between the second and third innings of the Red Sox-Athletics game through the courtesy of H. H. Frazee, owner of the Red Sox, and the success of the occasion is directly due to more than 100 patriotic men and women who willingly gave their time and money to put the thing through and to the 4,000 patriotic baseball fans who cheerfully dug down into their pockets.

Of the many people who gave their time, and who worked hard to put the thing across, former Mayor John F. Fitzgerald, Robert Weeks of the Liberty can Committee, Mme. Wilhel-

PROMISE QUICK SOLUTION OF AIRCRAFT PROBLEM

Washington, April 18.—A solution of the aircraft problem simijar to action taken with regard to the shipping board will be reached by President Wilson within forty-eight hours it was stated today in administration circles. Edward R. Stettinius, second assistant secretary of war, will be placed in a post on the aircraft board, practically identical with that of Charles M. Schwab, who has been made director general of the shipping board.

STATE OFFICIAL A SPY, ASSERTS COUNCILLOR

Councillor Lewis E. Sullivan of the Governor's Council, speaking at a dinner given by the Medford Republican City Committee in Medford last made the astounding charge that a Massachusetts State official was a spy in the employ of Austria.

He said this official was being paid about $1,400 a year by the State.

Among those who heard Councillor Sullivan's charge were Governor McCall, Lieutenant-Governor Coolidge, Congressman F. W. Dallinger, members of the Governor's Council and several members of the House.

Councillor Sullivan said that the man he referred to was indicted in New York, fled to Canada, later returned to Syracuse, N. Y., where he was mixed up with the I. W. W., and then came to Massachusetts. Sullivan declared the alleged spy obtained his employment with the State through the influence of a prominent Boston business man.

Albert B. Mosher of the Republican State Committee corroborated Sullivan's statements and said he has been investigating the case.

Both men made their statements during the course of patriotic addresses.

Congressman Dallinger said that the United States is not fully awake to the seriousness of the situation in Europe. He also said Germany is getting 6,000 carloads of food daily from Russia.

TWO BROTHERS AND SISTER DIE IN RIVER

Russell, Gordon and Marion Williams of Taunton Are Drowned While Canoeing

Taunton, April 18.—Three persons, two brothers and their sister, were drown here as a result of the overturning of a canoe in the Taunton river.

The victims were: Russell E. Williams, 22, a student at Technology; Gordon Williams, 16, a pupil at the Taunton High School, and Marion A. Williams, 24, bookkeeper in a bank here.

They were the only children of Mr. and Mrs. Charles T. Williams of No. 140 Dean street.

The young men had gone on a pleasure trip. Afterward they went home and took their sister for a ride. They failed to return home, and Mrs. Williams gave the alarm. The police think the boys were drowned trying to save their sister. The body of Russell has been recovered.

RED SOX-ATHLETICS GAME IS CALLED OFF

The fourth and final game between the Red Sox and Athletics at Fenway Park was called off on account of the rain today. The New York Yankees will be the attraction tomorrow in a double header.

Kaiser Is Shocked by Horrorrs of the Battlefield

London, April 18.—Karl Rosner, the war correspondent at the front for the Berlin Lokal Anzeiger, who is practically the personal newspaper representative of Emperor William, has sent to his paper the following expression of "sentiment" from the supreme war lord, inspired by the latter's gazing upon the battlefield near Quesnel, in the Cambrai region.

"What have I not done to preserve the world from these hor-

AMERICAN AVIATOR KILLED IN ONTARIO

St. Catherines, Ont., April 18.—Edward B. Dunyage of New Jersey, who was recently transferred from an aviation camp in Texas here, was killed while making a forced landing. His pilot was severely injured.

RUMOR OF GREAT COUNTER-ATTACK AT NAYON

New York, April 18.—A rumor sent out over brokers' wires this afternoon that the American and French forces had launched a powerful attack in the vicinity of Noyon caused advances of about 2 points in some of the leading stocks. The version of the story carried in Wall Street, which was entirely without verification from any other source, was that a Canadian newspaper had received a cable regarding the counter-ttack.

FRENCH REINFORCEMENTS STIFFEN ALLIED LINE IN FLANDERS

GERMANS SEND FRESH TROOPS INTO BATTLE, HEEDLESS OF TERRIFIC LOSSES

Continued from First Page.

tended to a semi-circle, north, east and south of the town, are exerting terrific pressure.

By International News Service.

London, April 18.—The British lines in the gigantic battle of Flanders hold firm. The War Office announced today that there had been no change in the situation.

German artillery was in action all night against the southern end of the British line. The bombardments were especially severe between Givenchy and the sector east of Robecq. Official details of Wednesday's fighting dwelt upon the ferocity of the struggle and the great German losses.

"There has been no overnight change on the British front," the official statement said. "German artillery showed unusual activity on the southern end of the Lys battlefield from Givenchy to the east of Robecq." This indicates a drive at Bethune.

"There was an intense bombardment of British positions between Locon and Robecq, which was still in progress at dawn today. In the Merris sector local attacks were repulsed on Wednesday evening.

"Detailed accounts of the fighting throughout Wednesday in the forest of Nieppe and on the Wytschaete front told of the severity of the enemy's losses.

"Southeast of Gemmel ridge the German infantry attacked in three waves and pressed back the British line at one point, but it was quickly restored.

"In the Bailleul sector the enemy attacked three times before Wednesday noon, but was completely repulsed.

"The British line yesterday morning was reported intact at every point."

The infantry lull on the Picardy front continued today. Elsewhere on the French front German attacks were repulsed.

"Several enemy surprise attacks in Champagne and east of Caurieres forest on the Verdun front and near Dauloup all broke down," the Paris War Office announced. "We captured some prisoners. Northwest of Rheims and in Lorraine successful raids were carried out against German trenches."

"A strong enemy detachment attempted to reach our lines in the Corbeny sector, but was dispersed by our fire."

Pressure on Ypres

With the French forces now fighting shoulder to shoulder with the British, the Germans are making a determined effort to take Ypres and to press back the British from all the points they hold in Belgium.

The Germans have been bombarding the British positions furiously along the entire battle front from LaBassee canal to a point north of Ypres.

Tannonades have been followed by fierce German thrusts in the region of Meteren (between one and two miles southwest of Bailleul) and Wytschaete (at the northern end of the Messines ridge), which were able to press the British from the ground they had recaptured yesterday morning.

In both of these sectors French troops are now co-operating with the British, and it is expected that the stiffened resistance of the allies will result in a complete check for the Germans.

The German War Office in its report on Wednesday night said that Poelcapelle and Langemarck, in Belgium, had both fallen.

Poelcapelle lies five miles northeast of Ypres on the Passchaendaele ridge. Langemarck lies about two miles west of Poelcapelle. Both points were gained by the British in their great offensive against the Germans on the West Flanders front last Summer.

French Give Support

The loss of the two British key positions in Belgium—Messines ridge and Passchaendaele ridge—makes the British hold on Ypres very precarious. In fact quite a number of English war experts have counselled the withdrawal from the Ypres salient. However, such declarations were made before the British army in this zone was strengthened by French reinforcements.

Again the Germans have brought up fresh troops, throwing them into the fighting with utter disregard of losses.

There has been stiff fighting in the sectors of Gheluvelt and Baccelare, near the famous battle-swept Ypres-Menin road, and the English have been compelled to yield slightly. The German losses, however, have been very severe, as columns advancing to the attack in dense formation were caught under direct artillery fire.

The latest phase of the Flanders battle represents entirely new operations by the Germans, but they were forecast several days ago by the intense artillery fire which developed east and northeast of Ypres in the Passchaendaele ridge zone.

The British forces holding that line had already been imperilled by the steady advance of the Germans west of Armentieres and the retirement had been expected.

The Belgian army holds the line immediately north of the district in which the British retired. If the Germans are able to increase their gains to any appreciable extent, the Belgian forces will be compelled to fall back with the British.

It is estimated by the British War Office that the Germans have used more than 1,500,000 men in the Picardy and Flanders battles since the fighting started twenty-nine days ago. Three-fourths of these men have been employed against the British.

New Movements Awaited

The next few days are expected to bring forth strategical movements on the part of the British for rectification of their line. There are dents along the Ypres salient that will have to be straightened out in order to avoid the cutting off of groups of troops by the Germans.

In the meantime the Germans will certainly keep up their pressure all along the line, centreing it against Hazebrouck and against Ypres. Hazebrouck is an important objective point, for one of the main British lines of communication supplying the troops along the Franco-Belgian frontier passes through it. If Hazebrouck should fall, this line would be cut.

"LEANING VIRGIN" LEVELLED AT LAST BY THE HUNS

Statue of the Madonna on City Hall, Albert, France, that has been tumbled into the dust by German "Kultur." When the town was first shelled the statue was tilted slightly. When this picture was taken it seemed that the statue was in danger of falling at any moment but it held at this angle for months.

U. S. TRANSPORT ATTACKED; SEA DIVER SUNK

An Atlantic Port, April 18.—Gunners aboard destroyers convoying an American transport are believed to have sunk a German submarine which they encountered about 1,000 miles from the American coast.

The transport was on its way to France, loaded with American soldiers destined for the trenches. The submarine was the first operation at sea.

Many of the soldiers on the transport were aroused when the action began, but the sinking of the U-boat was not known to them.

The convoying commanders apparently are attending their zone of operations with the utmost naval ardor, for no undersea raider has been reported as close to this shore of the Atlantic since the operations of the U-53.

The transport did not sight any other submarines on the way over, and had a peaceful return trip.

She brought to American thirty-nine German prisoners taken by Americans in France, and one naval prisoner, said to be the commander of the U-53, a submarine sunk by the destroyer Fanning. Four of the military prisoners are commissioned officers. The others were privates. They will be interned at Fort Oglethorpe, in Georgia.

COMPELS HUNGARIAN TO KISS AMERICAN FLAG

Port Chester, N. Y., April 18.—Three hundred angry workmen at the Abendrath Foundry compelled Louis Dudas, a Hungarian, to get down on his knees and kiss the American flag. Dudas was alleged to have made seditious remarks in the foundry, which is working for the government.

Loan Rally at Medford

In the interests of the Liberty Loan, Senator John W. Weeks, Chairman Payson Smith of the State Board of Education; William Kenney, who received a croix de guerre in France, and Lieutenant O. E. Jones of the Canadian Black Watch Regiment are to speak at a mass meeting at Medford High School Sunday evening. Tomorrow evening a parade of uniformed organizations will be held over the principal streets.

The shooting away by Hun artillery of the famous "Leaning Virgin" in the city hall in the town of Albert, France, retains the superstition among the French villagers that when this statue fell the war would end.

The statue, dispatches state, was shot down by German gunfire, and furnishes another sample of the Kaiser's vandalism, akin to the wrecking of the famous Rheims cathedral.

The leaning statue, one of the most famous in the war zone, was cutting turrigt early in the war. It corcched until it lay at horizontal.

Shot and shell flew about the spire, but it remained as it was, with the statue still leaning at its fantastic angle.

Gossip grew, and it was whispered around among the peasantry that the statue was an omen of the war, and that when it fell the war would end.

Cite Cambridge and Hopedale Sailors for Bravery

By International News Service.

Washington, April 18.—Five enlisted men, members of the armed guard of the steamer Antaeus, which was sunk on the night of November 24, 1917, today were commended by Secretary Daniels.

John A. Carroll of this city, and Osmond Parkerwise, seamen, of Bath, Me., remained at their guns at the time of the torpedoing of the vessel and did not leave until ordered to abandon ship.

William J. Hemmens, coxswain, remained by his gun until found everyone else leaving the ship. He was also commended for his subsequent conduct while adrift in a small boat. Henry E. Earl, seaman, also remained by his gun until the ship was abandoned. Albert Ferdinand Samuelson, seaman, of Minneapolis, proceeded to his station without waiting for orders. Both of these men were also commended for subsequent action.

Hennessey's home address is No. 29 Winter street, Cambridge, Mass.

Earle's sister, Minnie Blossom Hammond, resides at No. 14 Union street, Hopedale, Mass.

SOUTH BOSTON MEETING BRINGS OUT BOND BUYERS

A large gathering attended the mass meeting in the Municipal Building, South Boston, under the auspices of the South Boston Committee conducting the drive for the third Liberty Loan. Joseph A. Maynard was the presiding officer and at the conclusion of the appeals made by prominent men, thousands of dollars' worth of Uncle Sam's war bonds were sold.

HUN DRIVE NOW FOR RAIL HEAD AT BETHUNE

By FRANK CHARLTON,
International News Service Cable Editor.

A switch in the German assaults in the southern end of the mighty Flanders battle zone was indicated today in the growing intensity of the artillery fire in that sector.

It is probable that the Germans are preparing for a drive against the British rail head position at Bethune, in the hope of widening their salient to the southern end just as they did to the northern part.

Bethune is on La Bassee canal, eight and one-half miles south of Hazebrouck and sixteen miles northeast of Arras. It is slightly over nine miles from the present battle front, and lies at the edge of a series of strategic heights.

There has been no overnight change in the battle positions of the armies, although the British line for a short time was bent back at Kemmel ridge, a dominating height position in Belgium.

Kemmel ridge lies three miles southwest of Messines and west of the lower end of the much fought for Messines ridge.

GAIN WAS SHORT-LIVED.

The German gain was short-lived for the British delivered a strong counter attack, which quickly restored the situation there.

The British War Office's official report today located the violent artillery activity in the Locon-Robecq sector. The cannonade was continued all night and was still raging at dawn today.

Locon is twenty miles south of Ypres and between three and four miles east of Bethune. Robecq is about five miles northwest of Locon.

Official advices from the front dwelt upon the savagery of the fighting on Wednesday and the severity of the German losses. The fighting centred in the forest of Nieppe west of Bailleul and at Wytschaete on the northern end of the Messines ridge, both men were at grips at many points in between.

The Germans made another unsuccessful effort to extend their positions north of Bailleul, but the enterprise ended in a miserable failure.

It is established that the German hold Meteren and Wytschaete, which before no bravery could brilliantly defended by the British.

Meteren is between one and two miles west of Bailleul and about five miles due north of the strategic Hazebrouck railway. It is eight miles from Hazebrouck itself.

FRENCH TROOPS ARRIVE.

A steady stiffening of the British battle line is reported now that French reinforcements have arrived on the Flanders front. These fresh troops will be distributed north and east of that point where German pressure is greatest, doubtless on that part of the line where the Teutons are menacing Kemmel ridge.

Thrifle, the bombardments continue along the Picardy front, opposite Amiens and on both sides of the German salient on the Picardy plain.

This was the 29th day of the German offensive and the ninth day of the battle of Flanders.

FINNS SLAIN IN THOUSANDS BY THE GERMAN RAIDERS

By International News Service.

New York, April 18.—"Germany is turning Finland into another Belgium, another Armenia," declared Santeri Neuteva, representative in America of the provisional government of the People's Republic of Finland, in a statement denouncing Germany's treatment of his people. He continued:

"It is apparent that, in their zeal for subjugating the German junkers have reached a stage where wholesale murder is a commonplace of their policy. Latest reports from Finland tell of the execution in cold blood, without trial, of thousands of men, women and children, by the so-called White Guard in conjunction with their Prussian allies.

"It should be remembered that the White Guard is the army of the junker class in Finland who called in the Germans in order to maintain their feudal class privileges, which were menaced by the highly-organized classes.

"Thousands of men and women, including everyone of any prominence in the labor movement of Finland whom the Germans could get their hands on, have been stood up against a wall and shot.

"A list containing the names of all their political opponents is given to the junker classes in Finland to the German army and the proscribed persons are being relentlessly murdered.

"But the Finnish people will continue to struggle for freedom."

Wheatless Toast on Hotel Bill of Fare; Problem Solved

Wheatless toast is now a reality. The hotel men have solved the problem by inventing a new recipe for toast that does not call for the use of any wheat flour at all.

The toast, bread, rolls and sandwiches served in Boston hotels henceforth will be made from flour in the following proportions:

100 Pounds of corn flour.
125 Pounds of rye flour.
20 Pounds of potato flour.
13 Pounds of rice flour.

Miss Minnie E. Turner, manager of the Liberty Bread Shop at No. 85 Huntington avenue, says that the Liberty shops are selling this bread, but that the flour will not be available for households.

"The concession to use rye flour has been made temporarily to the hotel and restaurant people and to bakers," she says, "but to work this out for household recipes would be going contrary to the action of the food administration."

YPRES, SALIENT CENTRE, LONG A CITY OF RUIN

Ypres, centre of the famous salient of that name, has gained the sinister name of the "dead city" on account of the destruction wrought there by repeated Hun bombardments. It has been defended at terrible cost by the British, French and Belgians throughout the war.

The town, with its historic cathedral and Cloth Hall, was bombarded first in November of 1914, three months after the war opened. The first battle of Ypres, as it became known, endured between two and three weeks. Gradually the Huns won the Huns shattered it with explosive shells.

Six months later came the second battle of Ypres. In addition to shells, the Germans made their first use of poisoned gas waves. In this bombardment Ypres houses and buildings, what remained of the, after the first bombardment, were further blasted into dust and debris." Last Summer the Huns had leveled the town.

The cathedral's main tower was felled. The few remaining walls of the Cloth Hall were crumbled.

DESPERATE FIGHT.

Sir John French, when commander-in-chief of the British forces in France, declared that the second battle of Ypres was one of the most desperate fights of the war. Describing the German bombardment he said:

"The British concentrated large forces of troops and artillery and, failing in that, they resorted to one of that dastardly practice, hitherto unheard of in civilized warfare, the use of poisonous gas."

The Ypres salient was a bold curve in the West Flanders battle line, thrusting eastward and revealing the fiercest efforts of the Huns.

Capture of Ypres in actual terrain means only the acquisition by the Germans of so much shell-wrecked ground, a veritable graveyard. But as an advance of the German lines, it means a sinister furthering of the drive for the valuable channel ports. The town is about twenty-two miles from the coast, in direct line and about twenty-five miles from Dunkirk to the northwest.

The Germans, on three sides east, south and west, have made it an important transportation centre.

NOTED FOR LINENS.

Ypres was the capital of West Flanders. It was famous as far back as the fourteenth century. It was one of the richest and wealthiest towns in the Low Countries, and was noted especially for its linens and laces. Nowhere else than in Ypres was flax grown in such perfection, and the weaving cloth market, it was said, was famous. Tolfe derived from which is derived the familiar term name of diaper.

The town has repeatedly been attacked. It was besieged by the Englsh in 1513 by the Spaniards in 1579, and four times by the French in the seventeenth century.

Before this war Ypres was a town of powerful charm, with wide, beautiful streets lined with old Flemish dwellings and quaint business structures.

Just before the war began the Cloth Hall had been restored through popular subscription. The structure was poetically styled the "soul of Ypres." It meant to the Flemish town what Westminster Abbey means to London or Faneuil Hall to Boston.

126 German Divisions Hurled at the British and French

General Maurice of the British army says the British and French have engaged 126 German divisions in the Picardy and Armentieres battles, distributed as follows:

Divisions engaged by the British	79
Divisions engaged by the French	24
Divisions engaged by both French and British	23
Total German divisions	126
Divisions fought twice by the British and French	15
Divisions fought three times by the British and French	1

Estimating 12,000 fighting men to a German division, Ludendorff has hurled 1,500,000 at the allied armies.

GRIM DASH THROUGH U-BOAT ZONE TAKES "JOY-RIDE" OUT OF OCEAN VOYAGE

By BERT FORD
Staff Correspondent of the International News Service.

Somewhere in France, March 18. (By mail).—Getting "over there" is a real experience these days. The war has revolutionized ocean travel. Those who have crossed in peace times have little conception of the changes and the thrills.

It is no longer a joy ride. It is an adventure, likewise a lottery. You may arrive, and, then again, you may not.

The war has brought democracy into the saloon. A spirit of fellowship prevails from cabin to steerage. Life aboard a trans-Atlantic liner is more earnest and matter-of-fact.

Frivolities and artificialities have vanished. So have social lines and dress suits. Travelers today are too serious to bother with formalities.

A woman writer, who is to do canteen work for the Y. M. C. A. back of the fighting lines, said:

"One feels most at ease in backwoods togs. The gorgeous gowns and jewels of normal times would be absurdly out of place now."

This woman daily attire was a storm shirt, sweater, worsted cap, white tennis shoes and leggings, and she dined in this rig. She is an aristocrat, too, with a score of ocean trips to her credit.

The professional gambler no longer haunts the smoking room. There are no lambs to fleece. Tourists are not included in a liner's list these days. They have no right to passports and they don't get them. Liners are too rigid. Every person who goes aboard must be a mission.

That accounted for the cosmopolitan family on the ship that carried us safely through the danger zone. It was distinctly a family of war workers. There was a story in everybody on board.

COSMOPOLITAN CROWD.

There were two nuns with great beads hanging from their belts who sought secluded corners in which to pray. There were general opera singers on their way to Monte Carlo to fill an engagement.

There were a dozen Quaker lads going over as reconstructors. A female physician from Philadelphia who wore a raccoon coat was in charge of the Quakers.

"I taught school back to Ohio," said one young man. "I am under military age. Just turned twenty. We are going over to do reconstruction work. Some men's attitude is the idea. Our religion is opposed to fighting so we will serve our country in the less spectacular way."

"I shall work in a sawmill or at farming. The civilian population and disabled must be provided for. A fertilized acre in France or Belgium now is worth a hundred acres at home. We serve without pay. We are to be well insured."

A young Irish man, Walter E. Baker, of Arlington, N. J., dared the submarine zone to assist in educating blind soldiers.

There was a young officer of the Salvation Army in charge of eleven Salvation Army lassies, the eldest of whom could not have been more than twenty-five years of age. They wore olive drab uniforms with short skirts and coats and cunning little hats. On deck they wore military shoes. They piloted, who played a guitar, had his hands full keeping track of their passports, baggage and wards, especially when all were seasick, including himself. They all carried musical instruments. They played and sang on deck. They are to do canteen work.

DOCTORS AND NURSES ABOARD.

There were many Red Cross doctors and Y. M. C. A. secretaries on board and a few Red Cross nurses with their natty blue uniforms and their blue capes. Among the Y. M. C. A. secretaries were two Japanese and four colored workers. Every cabin and berth was taken.

There were American officers and soldiers on their way to join units, government employees serving in various departments, French officers, a few business men and a de-caser filed. The arrests were made in attachment of the Polish legion of hon-a house on Kimball street.

SERVICE ON AFTER DECK.

On Sunday, in a piping storm, when the ship rocked like a rowboat, an impressive service was held on the after deck. An army chaplain pulled vestments over his uniform and celebrated mass. An American bluejacket, a young giant, escorted the two nuns the length of the slanting, slippery deck. Every sailor and soldier drew beads or prayer book from his pocket.

Kneeling on the steerage deck, their bare heads swept by spray, the Polish volunteers followed the service with a gap of thirty feet between. The words of the chaplain and congregation were drowned by the fury of wind and waves, but it sure was a picture.

At night the steamship followed her course as mysterious as the darkness that enveloped her. Every window was curtained, and every port hole locked and screened, with wooden covers. To shut out any stray seams of light, canvas was hung for the entire length of the ship. Until the war zone was reached smoking was permitted on deck behind the port curtains, but flashlights were barred from the start.

Cigars and cigarettes glowed like fireflies in the inky blackness. Passengers were invisible, their subdued tones as they reclined in steamer chairs, swathed in blankets. The more timid spent the nights in bed, while others, a degree less timid, turned in, fully dressed.

SWING LIFEBOATS FREE.

Lifeboats were swung free. Lifebelts were kept handy. Passengers consoled each other, or tried to. A veteran skipper, in charge of transportation work, remarked that the drill was the worst part of it and advised fighting shy of lifeboats when boats were lowered.

Informal lifeboat drill suits was revived. Men and women discussed the fine points. It was astonishing how many had been trained in preservers that brought only half the score required every time on the horizon and gunners took their posts. The atmosphere became tense. Nerves frayed. Time unmasked the fears of many. Another critical day passed a day when fives hung in the balance.

Black smudges appeared where sky and water met. The sunrise flare brightened and hearts leaped. And then—land ahoy!

As the ship's company tripped down the gangway it was clear that landing over had not been a "joy ride."

14 DORCHESTER BOYS GUILTY OF GAMBLING

In the Dorchester court before Judge Churchill, eighteen boys were arraigned on the charge of gaming on the Lord's Day. Fourteen were found guilty and fined $5, on which they appealed. Two were discharged and two were held over.

The Most Wonderful Plant in the World

IF a large and thoroughly reliable business concern offered to the public a plant that could be bought in any size, at a price suited to every man's pocketbook, that required absolutely no care, would grow out-of-doors or in the house, summer and winter alike, and was guaranteed to bear twice a year, on stated days for a period of ten years, blossoms so highly prized that anybody would accept them in payment for merchandise and service; and if at the end of the period the concern guaranteed to repay the owner his total original cost—such a plant would truly be the most wonderful plant in the world.

The above conditions apply exactly to the terms and advantages of the third issue of the Liberty Loan Bonds. We advise their purchase by every household in the country.

BELIEVE PROVIDENCE RIVER VICTIM JAMES L. AHEARN OF BOSTON

FOUL PLAY HINTED IN TRAGEDY

Classmate of Ex-Gov. Walsh, Man of Wealth, Had Been Missing About Six Months

James L. Ahearn, classmate of former Governor Walsh at Boston University Law School and a well-known Boston man, is believed to have been the victim of foul play. His body was found in the Providence River at Providence. Mr. Ahearn has been missing for six months. Today Major Thomas F. Walsh, who has been looking after his property, went to Providence to make a positive identification.

Before leaving Major Walsh told the AMERICAN he was practically certain that the body was that of Ahearn.

The dead man wore gold cuff links marked "C. L. A." and wore a plain band ring inscribed inside: "From P. A. to C. M., April 25, 1876." This is believed to be a ring given by his father, the late Patrick Ahearn, to his mother, who was Catherine Murphane. The body was also clad in clothing purchased from Boston dealers with whom Mr. Ahearn was known to trade.

ONLY 28 CENTS IN POCKETS.

The theory of foul play was based by Medical Examiner Grigin of Providence on the fact that the pockets in the dead man's clothing were turned inside out. The only money found was the sum of twenty-eight cents in a vest pocket, although Ahearn was independently wealthy and was known to carry considerable amounts.

Major Walsh, of the law firm of Walsh & Walsh of this city, first learned of the tragedy through the exclusive story which appeared in the AMERICAN yesterday. An AMERICAN reporter, working on the clew furnished by the cuff link initials "C. L. A.," had suggested that Ahearn might be the victim. Mr. Walsh, who had been searching for Ahearn for six months, immediately made arrangements to go to Providence.

LIVED IN ROXBURY.

James L. Ahearn was about forty-five years of age, and is the son of Mr. and Mrs. Patrick Ahearn of Roxbury. His father died some years ago and Mrs. Ahearn married again.

Returning to the United States he engaged in business in this city, and following his father's death made his home with an aunt, Mrs. Mahany of Roxbury. He also maintained an apartment in the Back Bay.

Ahearn was free-handed and popular, and at one time was in for politics to some extent, being a member of the State Board of Economy and Efficiency, now defunct. He was a well-known figure in Boston, where he remained until the death of Mrs. Mahany last Fall. Ahearn then went to Taunton and engaged in the clothing business.

WOMEN AID AYER FUND AT RED SOX GAME

At top, Pitcher Joe Bush of the Red Sox team making a contribution to Miss Klora Horne, Back Bay artist. At bottom, Mme. Wilhelmina Wright Calvert, singing "The Star Spangled Banner" to several thousand baseball fans at Fenway Park.

LIBERTY BOND RALLIES IN DEDHAM SCHOOLS

To get children to interest their parents in purchasing Liberty Bonds, rallies were held in every public school in Dedham today. E. C. Potter of the New England Liberty Loan committee addressed the children. He was introduced by Superintendent of Schools R. W. Hine.

RECEPTION TO MINISTERS OF MORGAN MEMORIAL

The pastoral staff of the Morgan Memorial and the Church of All Nations to be dedicated next month was tendered a reception at the Morgan Memorial auditorium on Shawmut avenue, several hundred persons attending. The clergymen now connected with the Morgan Memorial and their wives received.

THREE KILLED AS TRAIN GOES OVER EMBANKMENT

Clarksburg, W. Va., April 18.—Three men were killed when a runaway freight train left the track and plunged over a thirty-foot embankment on the West Virginia Northern Railroad at Marion, near Tunneiton. The dead are: Frank Fuch, engineer, of Kingwood; John Hoheman, fireman, Kingwood, and M. D. Johns, Baltimore & Ohio conductor.

Continued from First Page.

mitta Wright Calvert, bandmaster presidente Resolucion of the Charlestown Navy Yard Band, H. H. Frazee and Mrs. May Flake Hoffman can be mentioned.

The crowd at the game had been notified of the approaching collection and all eyes were turned toward the box where Mme. Calvert, her daughter and Former Mayor Fitzgerald were sitting. At the end of the second inning, during a rest on the bugle announced the opening of the ceremony and Mr. Fitzgerald stood up in the stand. He paid a high tribute to the men at Ayer and spoke a few graceful words in behalf of the Liberty Loan. Then he said:

"I know I am not appealing in vain to men and women of Boston when I give as freely as they can to a project so worthy as the Boston-AMERICAN Camp Devens Baseball Fund. This fund will make possible a well equipped athletic field for the men at Ayer and everybody here realizes that the least we can do for the men who are going overseas to fight for us is to make their stay in the training camps as pleasant as possible.

SINGS NATIONAL ANTHEM.

"Mme. Wilhelmina Wright Calvert, the famous singer, has offered to sing to you the 'Star Spangled Banner.' I take great pleasure in introducing Mme. Calvert."

Immediately after the song the fifty cab workers passed through the stands.

Ten and five dollar bills were seized with the smaller bills and silver which poured into the tin pans and the ring of coin throughout the whole field testified to the enthusiasm which the Baseball Fund has aroused in every red-blooded Bostonian.

And still a little more money is needed. It is the hope of Major General Harry Hodges, commander of the fund, that enough money can be secured to build on the land tendered by the Government a grandstand big enough so that all the soldiers who want to see the athletic events and military review held on the parade ground at Camp Devens will have an opportunity to do so.

So with this start it will be easy for New England to subscribe the balance of the required amount.

The following is the latest list of contributions:

Previously acknowledged	$750.83
W. L. Hartford	7.00
T. C. Geneva	1.00
James W. Austin	3.00
Mrs. A. W. Fitzpatrick Collection at Red Sox game, Fenway Park	357.50
	$1,116.92

HOW TO SEND MONEY.

A word as to the right way to make your contribution is in order.

DO NOT MAKE ANY CHECKS FOR THE FUND PAYABLE TO THE BOSTON AMERICAN. CHECKS PAYABLE TO ROBERT C. DEMING, TREASURER, WHO IS IN CHARGE OF THE FUND. THE AMERICAN IS ACTING SIMPLY AS A TRANSFER AGENT.

Contributions to the Boston AMERICAN Camp Devens Baseball Fund will be received by this paper for transfer to Lieutenant Deming, or, if contributors prefer, they may send their contributions direct to Lieutenant Robert C. Deming, treasurer Boston AMERICAN Camp Devens Baseball Fund, at Camp Devens.

Another benefit for the baseball fund which promises further to boost the total will be held in Boylston Hall, Charlestown, tonight when the Morning Glories of Charlestown hold their fifth annual ball. The affair will be in charge of a committee composed of Martin Killeen, chairman; Frank McNamara, secretary, and John O'Brien, treasurer, and a feature of the ball will be a cabaret conducted by Johnny Riley, in which some well-known talent will appear. A part of the proceeds from this entertainment will be devoted to the Camp Devens Baseball Fund.

MELROSE WOMAN LEAVES FUND TO CARE FOR AGED

A home for aged persons of both or either sex, as trustees may decide, will be built from a fund of $156,000 left by Mrs. Sarah E. Fitch of Melrose, in a will filed today at East Cambridge court house. The trustees are Wallace R. Lovell, Frank M. Hoyt and Howard B. Hitchings of Melrose. The will provides $1,000 each to the Melrose Y. M. C. A., Foreign Missionary Society of Methodist Episcopal Church, Melrose, Home Missionary Society, Ladies' Aid Society and official board of the same church, and Post 4, G. A. R., of Melrose. Five hundred dollars is left to Melrose School Committee to aid deserving high school graduates. Mrs. Fitch's estate amounts to $187,000.

ASSUMED NAME OF HODEN.

The suit was accepted on the strength of her statement that she was a daughter of the late Peter Hoden, of Walsh, with an estate worth $50,000. She later admitted that the name was an assumed name.

Then her marriage to Count Klapka was announced. It was said a fine party during his Christmas visit. After spending a ten-day honeymoon in Hamilton, Count Klapka went home. The boy took his father's name's humor and introduced the young woman who accepted him immediately made public a large reception in a Back Bay home. Invitations had been accepted by about 300 people on the morning was learned that the bride's reception was called off and the bride went to live with Mme. G. Fuller, her friend, in Hamilton. She remained at this home until the libel for annulment of the marriage was filed. She refused to go down town hotel or in the presence of meeting her husband, and he agreed with pained sensibility case.

The papers said that "Winifred was a very nice girl."

JUST A QUIET, LITTLE GIRL.

"Winifred was a quiet, unassuming little girl," said Mrs. Bonanza. "I don't know how she could have told all the wild tales that she seems to have told. But you never can tell what a girl will do when she is in love.

"I didn't know her at all until she came to me to live with me. She was recommended to me by a friend of mine, and she had no friends in Boston. And as I wanted someone to live with me—my husband is on a training camp in Texas—I took her. She lived two weeks ago.

"I didn't even know that she was married. I know her as Winifred Ogden. This 'Jack' Krieger came to see her quite often, but I knew him only as 'Jack,' and there was nothing at all personal in their talks. There was nothing to make me think that she was married. She was very reserved, very quiet, and was much excited. He wanted to tell me something, but as I said I refused to hear it. I guess from that she didn't want me to know that she had been hiding anything from me.

"They were away in a taxi-mostly thought that they were going in town to lunch, as they often did. Later in the day, however, Jack called me up and said that he mother had telephoned for her and that she wouldn't be back that night. That was the first I knew she was married. Winifred was told me that she had been offered $100 to buy her off.

"Winifred really seems to be sure of her from what she told me.

"Winnie never promised to be true to me," said Jack. "I don't know what her never talked about her family, except her mother, of whom she seemed to be very fond."

BOY'S LIFE SAVED BY TOURNIQUET; LOSES LEG

Prompt action by Lea Casala of No. 55 Webster avenue, Chelsea, today, saved the life of ten-year-old Lawrence Bennett, son of William R. Bennett, No. 92 Clark avenue, Young Bennett, a pupil in the Spencer Avenue School, had returned home to obtain a bankbook that he had forgotten, when he undertook to get a ride on the wagon of John Ryan on Webster avenue. One of his feet was caught in a wheel, and it was almost severed from the body. He was picked up by Casala, who made a tourniquet with his belt and chief and stopped the flow of blood. The boy was later taken to the Free Hospital, where the limb was amputated.

TEUTONIC RULE IS NOW SUPREME IN UKRAINIA

By International News Service.

Washington, April 18.—Germany and Austria have assumed complete control of Ukrainia, according to advices reaching the State Department today.

These reports say that apparently the object of the Teutons is to make this territory, formerly the richest in Russia, entirely Austro-German in character. All communication with Russia proper has been cut off. All native officials have been replaced with Austrians and Germans.

Orders have been issued for the arrest of all enemie officials in the territory, military and consular. It is believed Austrian and German money is the only medium of trade.

It also is reported, but not fully confirmed, that the Austro-German authorities have decided to dissolve the Rada.

ROMANCE GONE; 'HEIRESS' STILL LOVES JACK

Refuses to Give Up Young Husband; Papers to Annul Marriage Served

Winifred Ogden, the parade beauty whose "camouflage romance" with John Krieger of Brookline, Williams College junior, has been shattered, has resolutely refused to renounce him.

The young woman said to be the daughter of a Waltham laborer, indignantly declined to give him up and said that her nineteen-year-old husband still loved her and would return to her, according to one of her friends.

Her statements was contradicted by Attorney Stanley Bishop, who declared that Krieger had left his wife for good and that he was not in New Jersey with his mother awaiting a call into the aviation service.

The boy's mother, Mrs. Estelle M. Krieger of Brookline, through Attorney Hodgen has filed a libelle suit in the Suffolk County courts to have her son's marriage annulled on the ground that he is a minor and that his consent was secured by fraud.

Attorney Bishop declared Mrs. Krieger would contest the libel and that she would not permit her son to testify along that line.

TRANSFER OF PROPERTY

Mr. Bishop would not show the transfer of property, but admitted that Mrs. Krieger had transferred all of his possessions as that it could not be an asset of his estate. He declared that Krieger had a good position, was a traffician for a transportation company.

Bishop insisted that the talents of the young couple being in favor of their remaining married, that Mr. Dutton in his attempt to show the impossibility of his testimony as the importance of no being a witness, and that he could not be forced to testify, as no one, I might say as what I might not say.

Bishop declared the divorce had reported to be a witness for Mrs. Krieger in the case.

NO TESTIMONY BARRED.

According to Attorney Dutton's testimony today, no evidence but that from now on had ever existed between Mr. Eaton's confidential relations would have been brought about by the conduct and influence of Mrs. Eaton.

The Pasadena lawyer said that he was not permitted to say what he believed to be the reason for becoming a witness for Mr. Eaton.

MINNEAPOLIS DISTRICT REPORTS BIG BOND RUSH

By International News Service.

Washington, April 18.—The whirlwind campaign started in the Minneapolis district, already has resulted in 98 out of 100 per cent of the quota assigned for the Liberty Loan, according to reports received today. The spring rains have unjustly retarded the work of the bond salesmen. The Fifth District federal reserve district had taken the lead today in the Liberty Loan campaign, with the total having jumped to 191. The subscriptions in the farmland district of Minneapolis, Helena and Billings, Mont., and Cheyenne, Wyo., reported sales of more than $17,000,000, which is almost half of the quota assigned. This district has 24,500 individual subscribers.

Minneapolis has been awarded an honor flag for the San Francisco Bank and the city of San Francisco for getting over the top. Reports compared with the progress in the second week. The States of Kansas and the Oklahoma, Missouri and Kansas City districts, embracing the Kansas City district, Oklahoma City and Omaha, have subscribed $1,000,000,000. That part of Missouri in the Kansas City district, exclusive of Kansas City, has

NATION GETS THE FIRST BILLION IN THIRD LIBERTY LOAN

Continued from First Page.

age of returns is not sufficient to provide the minimum quota in the time allotted.

SPLENDID WORK BY WOMEN.

A feature of the campaign locally has been the splendid work of the women's committee. Of Acton's quota of $57,000, Mrs. R. Gates Baker, chairman of the Women's Loan Committee, reported that that organization had obtained $45,100. Ironline women on Tuesday alone got $5,800 in pledges and the Cambridge women equalled that sum on the following day. Charlton, in its first day, brought in $1,700 for the women's committee, and Worcester's mark has reached $70,500. Many other cities and towns are worthy of commendation for the splendid assistance their women are giving to the campaign.

Fred Contremarch of Central Falls, R. I., a veteran of the Philippine campaign who is now serving as assistant cook for the United States Guard in Charlestown, came to the headquarters of the women's committee today to buy a bond. He said that he had been influenced by literature he had read to put his money into the loan, and took some more literature in his companions at the armory.

The Rhode Island women's committee reports having obtained subscriptions for the State of $433,200, and in addition, through a canvas of the theatres, $200,000. Their sales in Liberty Bell booths were $120,000 and the total subscriptions obtained by the women, therefore, $753,200.

142,711 SUBSCRIBERS NOW.

The Soldiers' Home at Togus, Me., has been granted a separate quota of $12,000, as yankee are the Civil War veterans to do their part now.

Additions to the loan for 24 hours, as reported today, were for the New England district, $9,149,000, of which Massachusetts contributed $5,670,000, Connecticut $1,957,000, Rhode Island $800,000, Maine $340,000, New Hampshire $187,000 and Vermont $175,000. The number of individual subscribers was increased by 24,000 and is now 142,711.

The addition for the day from Boston was $2,671,000, and the grand total for the city now is $25,291,000, of which amount about $19,000,000 will be transferred in credits to other cities and towns. Massachusetts has raised $43,244,000, or 34 per cent of its quota.

Maine has raised 51 per cent, of its quota, New Hampshire just over 50 per cent., and Connecticut 32 per cent.

MUST RID SCHOOLS OF GERMAN LANGUAGE

Washington, April 18.—"The teaching of German in the public schools of America was denounced here before daughters of the American Revolution with unmistakable approval of the assembly in Memorial Hall, where one week conference opened. Mrs. Mary V. E. Cabell, of Chicago, venerable honorable president presiding as the first person of the society, seemed to voice the opinion of the members when she said: "I want to add my feeble voice in the strong voice of this congress for the elimination of the German language from the public schools."

PICKFORD AND FAIRBANKS INCOMES NEAR MILLION

New York, April 18.—Mary Pickford and Douglas Fairbanks, the film stars, have made income tax returns to Collector Mark Kinney. The figures on the checks accompanying the statements were not revealed, but it is understood that each reported an income within speaking distance of $1,000,000, and that Mary's was larger for the city now is $25,291,000, of which that of Fairbanks.

EMMY WEHLEN TO SPEAK HERE IN BOND DRIVE

The Metro Pictures Corporation has constituted the services of their greatest woman star, Miss Emmy Wehlen, in the campaign for the sale of Liberty Bonds throughout the country. Miss Wehlen started her nation-wide tour in New York last week, and proved a winner for the sale of Bonds.

She will arrive in Boston Friday morning, April 19th, and will appear several times during the day personally at the Park Theatre, and show the patrons just why they should help Uncle Sam and buy Liberty Bonds.

She will sing as well as make a little speech, and there is no doubt but that she will convince every person in the audience the necessity of loaning their money to the Government.

Miss Wehlen is one of the most popular and beautiful stars of the screen, and her unusual talent has won for her great success. She starred in the leading role in "The Merry Widow" in London, and in Boston and New York won great praise for her excellent work as the star in "Tonight's the Night." Her home town screen successes have been "Fabric Turned," "The Pretender," "The Outsider," and the "Shell Game."

$20,000 LOAN PLEDGES BY LOWNEY EMPLOYES

W. T. A. Fitzgerald and Signor Ubaldo Guidi addressed a Liberty Loan meeting of the Lowney Co-operative Association. The employes pledged over $20,000 and the firm purchased $100,000. H. R. Wellman, vice president of the company, presided.

MAYOR'S WIFE TO ENTERTAIN MRS. DANIELS

Secretary of Navy and Party to Put in Busy Day Tomorrow

From the time of the arrival of Secretary of the Navy Daniels' party from Washington at seven o'clock Friday morning, to review the big naval and military parade under the auspices of the New England Liberty Loan Committee, the city of Boston, through the wife of the Mayor, Mrs. Andrew J. Peters, will extend its hospitality to Mrs. Daniels.

Mrs. Peters is to meet the party at the station, and the first formal entertainment will be a luncheon, tendered to Mrs. Daniels at Hotel Somerset, at 12:30. Mrs. Peters is to preside, and among the ladies to whom invitations have been extended are Mrs. Spencer Wood, Mrs. General Johnston, Mrs. Samuel McCall, Miss Jane Peters, Mrs. F. L. Higginson, Mrs. Barrett Wendell, Mrs. Malcolm Lang, Mrs. George H. Fearing, Jr., Mrs. Charles A. Morss, Mrs. N. P. Hallowell, Mrs. Nathaniel Thayer, Mrs. Joseph Kennedy, Mrs. Barrett Wendell, Jr., Mrs. John Phillips, Jr., Mrs. F. P. Lane, Madame Flammand, Signora Gustave Dirosa, Mrs. Joseph Adamowski and Mrs. Dreyfuss.

TEA AT PETERS HOME.

After reviewing the parade, Mrs. Peters will take Mrs. Daniels to her home in Jamaica Plain for an informal tea, and 6:30 they will attend a dinner given in honor of Mrs. Daniels by Mrs. F. L. Higginson, Federal Reserve chairman of the Woman's Liberty Loan Committee for New England, and Mrs. Barrett Wendell, chairman for Massachusetts, at the Somerset Club.

The Liberty Loan Committee of New England announces this program for the visit of Secretary Daniels.

He arrives Friday on the night train from New Haven, going at once to the Copley-Plaza for breakfast.

At 9 a. m. he will visit the Harvard Radio Station, going at 10 to the Charlestown Navy Yard.

At noon Mayor Andrew J. Peters will give a luncheon in his honor at which Admiral Wood and Commandant Rush will also be present.

From the luncheon he will move to the reviewing stand at the State House where, with Governor McCall, he will review the parade of United States troops, which begins at 2 o'clock.

TO INSPECT PIER.

At 4 p. m. he will inspect Commonwealth Pier and later visit the Naval Service Club and the headquarters of Admiral Wood. At 6 p. m. he is the guest of honor at a dinner given by the Liberty Loan Committee of New England, and will make the chief address. Chairman Charles A. Morss and Mayor Peters will speak.

From the dinner the secretary will go to the mass meeting at Symphony Hall, at 8:15 p. m. Here N. Penrose Hallowell, executive chairman of the Liberty Loan Committee, will preside, Governor McCall will welcome the secretary, Major Howard A. Giddings of Hartford, Conn., who has been sixty days in Europe for the Government, will give the situation as he saw it. Secretary Daniels will make the chief address.

LORD MILNER, on top, new War Secretary in the British Cabinet, and Lord Derby, whom he succeeds.

Continued from First Page.

Derby as Secretary of War, has been a minister without portfolio in the British War Council, and was mentioned to succeed Earl Kitchener in the position which has now been offered him. He was Governor of Cape Colony and High Commissioner of South Africa during the Boer War.

The Earl of Derby, who succeeds Lord Hertie as English ambassador to France, was appointed in 1915 to the position of director of all recruiting throughout the United Kingdom. He served in South Africa as private secretary to Lord Roberts, and has held offices as financial secretary to the War Office and as postmaster-general.

HOUSE OF LORDS LIKELY TO VOTE HOME RULE

Lansdowne Ready to Abandon Old Antagonisms to Help Win the War

By International News Service.

London, April 18.—That the House of Lords will pass the Home Rule for Ireland bill stood out today as a virtual certainty. This was shown by the speech of the Marquis of Lansdowne, in which he said:

"Our duty is to help encourage the gallant army to the utmost of our ability. I feel so strongly on this point that I am quite ready to throw to the winds many old notions and antagonisms, and I believe that this can be done without harm to consistency or the pledges of the government."

Lord Lansdowne has been regarded as one of the chief opponents to Irish home rule in the upper house.

The government already has pledged itself to put through the man-power bill, extending conscription to Ireland, and the home rule bill. In fact, the cabinet has threatened to resign if the House of Lords rejected the home rule act.

RUNAWAY UPTON GIRLS FOUND IN NEW BRITAIN

Milford, April 18.—Lois Hoyle and Rose Childs of Upton, runaway high school girls of thirteen, who decided they would see the country on $15, have been found at New Britain, Ct., police reports from that city stated today. While the parents of Miss Childs were deciding to go and bring their daughter back, friends of the Hoyles were vainly attempting to find Mrs. Addie Hoyle and Miss Ada Hoyle, mother and sister of the other girl, who have been frantically searching the State of Connecticut for her.

ROXBURY LOAN RALLY ON MONDAY EVENING

Former Mayor James M. Curley, Private Arthur Mack of the British Army, known as "Skullproof Mack," Theodore A. Glynn, Thomas F. Phelan, Representatives Gillen and Joyce, Daniel F. Honen and Henry W. Kelly will be the speakers at the Liberty Loan rally in the Municipal Building, Vine and Dudley streets, Roxbury, Monday evening. The meeting will be under the auspices of the Liberty Loan Committee of New England. Henry W. Kelly, chairman of the Ward 12 committee, will preside.

WHOOPING CRANE TO ADORN MUSEUM HERE

Boston has received a splendid specimen of the whooping crane, whose cry literally "makes a noise like a whoop." This bird doesn't give a whoop now. He can't. He's stuffed. When he lived he was stuffed with whoops. Now he is stuffed with whatever it is that union stuffers use to preserve birds. Mr. W. Crane has just been added to the Boston Museum of Natural History. His species is nearly extinct. This one was shot ten years ago in Connecticut. Since then he has been adorning the Natural History Museum of New York.

SAYS HUSBAND TAUGHT CHILDREN TO SLUR U. S.

New York, April 18.—Richard von Foregger, a doctor of philosophy and manufacturer of anaesthetic appliances, has been sued for separation in Mineola, L. I. The family lives at Roslyn. Mrs. von Foregger charges her husband is pro-German by virtue of his Austrian birth. She alleged he had taught their two children to ridicule the United States, its customs, habits and flag. She says he had been cruel and inhuman in other ways. Justice Scudder awarded Mrs. Foregger $25 a week temporary alimony.

TARDIEU REAPPOINTED FRENCH COMMISSIONER

Washington, April 18.—Andre Tardieu has been reappointed French High Commissioner to the United States for the third successive term. News of his reappointment met with expressions of the profoundest approval when received by officials of the State Department, the War Trade Board, War Industries' Board and Food Administration.

M. Tardieu was originally appointed High Commissioner to the United States on April 15, 1917. The appointment was renewed last October and again today for a third term.

Just Try This When Hairy Growths Appear

(Modes of Today)

A smooth, hairless skin always follows the use of a paste made by mixing some water with plain powdered delatone. This paste is applied to the hairy surface for 2 or 3 minutes, then rubbed off and the skin washed, when every trace of hair will have vanished. No pain or discomfort attends the use of the delatone paste, but caution should be exercised to be sure that you get real delatone.—Advertisement.

To The Men Who "Roll Their Own"

TAKE a good look at your little white sack of the makings—"BULL DURHAM" tobacco. For we are going to ask you to part with good old "Bull" for a time. He has enlisted. He has gone to the front to help win the fight over there—every single sack of him.

The Government has asked for the entire output of our "BULL DURHAM" factories, and what the Government asks we all give cheerfully.

The millions of sacks of "Bull" we have been sending abroad have not been enough. We must give ALL to our men at the front—36,000,000 sacks—2,000,000 pounds—100 car loads every month.

So, with your own hands, roll yourself a cigarette of "Bull"—carefully, thoughtfully, just the best cigarette you ever rolled; and while you smoke it, THINK.

There is only *one* thought you can think—it is this: "If the boys over there need *my* 'makings' they're *sure* welcome. Here's to them and good luck. And may every little bag carry its inspiration of hope and courage."

And if you have sentiment, just save the round white tag of your last sack and hang it up in memory of good old "Bull". For you will be proud to know him when he comes back—as he must come soon—covered with medals of honor for service.

A Million Breakfasts Cooked This Morning on

Crawford Ranges

Was Yours One?

This style Range in four types, Palace, Castle, Fortress and Cottage.

Among the exclusive Crawford features that have made this range preferred above all others are:

A convenient gas end oven, **equipped with new and improved gas broiler. This broiler is instantly adjustable to hold the food at any required distance from the flame without touching the pan, without bending over. It folds away when not in use.**

Two separate ovens, **both large and roomy—one for coal, the other for gas—both are perfect.**

Five center heat gas burners **of a new and efficient type bring the heat directly under the center of utensils without wasting gas.**

Guarded gas cocks **which eliminate danger of accidental opening.**

Perfection of design and finish, long service and utility, distinguish Crawford coal ranges—or gas combinations.

SPANISH WAR AUXILIARY IN CONVENTION

East Boston Woman Endorsed as New President; Reception Tonight

The Woman's Auxiliary to the Spanish War Veterans met in Tuileo Hall today, for a two days' convention.

Mrs. Lillian A. Cook is the retiring president. Mrs. May D. Kelley of East Boston is the endorsed candidate for president, having the support of practically all of the 400 delegates.

Other officers officially endorsed include Mrs. Rena Jenkins, of Charlestown, for senior vice president; Miss Jennie B. Fox, an army nurse, junior vice president; Mrs. Elizabeth Green, of Worcester, chaplain; Mrs. Dora Varney, patriotic instructor; and Mrs. Jennie Isaacs, of Roxbury, conductor.

The session opened with a patriotic address of welcome by Mrs. Cook. Luncheon was served at noon and the afternoon session was given over to nominations and reports.

A reception, tonight, from seven to eight o'clock, will complete the day. Tomorrow's program will include the election and the installation of officers.

The chairman of the convention committee is Miss Catherine L. Crane of Roxbury, secretary, Miss Jane Donahue, treasurer, Mrs. Anna Barry Nagle; chairman of the entertainment committee, Mrs. Elizabeth Sanford of Allston; secretary, Mrs. Mary Smith of Roxbury; treasurer, Miss Mae Mason, members of the committee, Miss Helen Neves, Roxbury; Miss Catherine O'Keefe, Roxbury; Mrs. Tasilow, Medfield; Everett; Mrs. Margaret Ford, West Somerville; Mrs. Mary McNeil, Brighton; Mrs. Marie Bowman, Roxbury; Mrs. Catherine Burke, East Boston; Miss Catherine Ward, Somerville; Mrs. Catherine Hayes, East Boston; Miss Anna Murphy, Charlestown; Mrs. Mary Culligan, Charlestown; color bearers, Mrs. Dawson Francis, Roxbury; Mrs. Hannah Cook, Allston; Mrs. Harriniger, Jamaica Plain; Miss Nellie Williams, Brighton; Mrs. Irene Kenen, Roxbury; Mrs. Catherine Wilkens, East Boston; Miss Elizabeth Cook, Mrs. Elizabeth Sanford, Mrs. Lydia Hallett.

Committees will be Miss Anna Murphy, Charlestown; Mrs. Jessie Isaacs, Roxbury, and Miss Charlotte Ward, Somerville.

Officers and guests will receive guests at the reception will include national judge advocate, Minnie Lindsley, Dorchester; national president, Elizabeth L. Mc Nanamy, Dorchester; national vice president, Ida A. Cook; national counsellor, May D. Kelley; national aides, Edith W. Lyon, of Cambridge; Miss Maude Dugan, of Providence; Mrs. Louise Brooks, Springfield; Miss Clara Sullivan, Fitchburg; Mrs. Elizabeth Beers, junior vice president; Mrs. Rena Jenkins, chairman; Miss Jennie B. Fox, secretary; Miss Anna Barry Nagle, treasurer; Mrs. Anna Barry Nagle.

SUDDEN FLOP ON 50-HOUR BILL FOR WOMEN

Predictions of Hostility of Mill Interests Borne Out by Committee's Vote

In a sudden flop the Legislative Committee on Social Welfare today voted to kill the 54-hour bill for women and children.

The committee reversed its attitude on the bill, on the face of Representative Homer S. Cummings' statement that the manufacturers of the big mill industries were attempting to kill the bill in the committee.

Cummings' charge was the immediate cause of much foot dissension, to report a unfavorable on a 48-hour week for women and children in the mill industries. They now work 54 hours a week.

The fight was put squarely on the House floor when a motion was made by Representative Dunkle of Boston to report on the bill. The motion wanted for the making was that the committee be allowed to reconsider whether or not to report favorably on the women and girls who are employed in seasonal occupations.

THE VOTE AT FIRST.

The matter had the bill recommitted again, that Representative Herbert A. Wilson of Brighton moved that the whole matter be referred to the next Legislature. The motion resulted in a tie vote.

Senator Wilson, Senator Hastings of Adams and Representatives Perry of Northbridge and Lord of Athol voted for the motion.

Representatives Greenwood of Everett, Prothingham of Boston, Chesley of Abington and Corrigan of Salem voted against the motion.

Senator Bates of Reading and Representative Dunkle of Boston did not vote. Representative McIntosh of Quincy was absent.

Another executive session of the committee was called for this morning. Representative Corrigan and Mrs. L. D. Barnard of the Women's Trade Union League warned the public that the big mill lobbyists were working to kill the bill. They named Allan D. Buttrick of Lancaster, for the Arkwright Club, and former Representative Francis M. Hill of Boston, for the Associated Industries, the organization of capitalists who financed the campaign against the Initiative and Referendum.

When the committee met today Wilson again moved that the bill be referred to the next General Court. The motion resulted as follows:

Yes—Wilson, Hastings, Perry, Dunkle and Lord—5.

No—Greenwood, Prothingham, McIntosh and Crowley—4.

Absent—Corrigan.

Present but not voting—Eames.

Corrigan had announced that he would not attend this meeting. Corrigan present the motion would have been defeated by a tie vote of 5 to 5.

MEANS FIGHT IN HOUSE.

Dunkle was the member whose vote decided the temporary defeat of the bill. Today he voted to refer the bill to the next Legislature. A week ago he had been silent.

A motion to admit the newspapermen to the meeting today was defeated by the committee. The adverse report on the bill will be fought by the progressive members of the House.

GARFIELD SUSTAINED BY WILSON IN CONTROVERSY

Washington, April 18.—[illegible] conferences between John Skelton Williams, representing the railroad administration, and Fuel Administrator Garfield, it has become known, were adjusted when President Wilson at the weekly meeting of the war cabinet unqualifiedly sustained the position taken by Mr. Garfield.

Fuel Administrator Garfield has insisted that car shortage of the railroads has not been decreased and that his program of getting coal to the consumer was in danger of disruption. It has been said that the railroads were making an effort to force the Fuel Administration to reduce the price of coal to them and that they did not hesitate to hold up the movement of cars in an effort to enforce their claims. This charge is denied by Mr. Williams.

LIBERTY LOAN FLAG RAISED AT NAVY YARD

The Navy Yard witnessed one of the biggest flag raisings in its history when the Honor Flag of the Third Liberty Loan swung to the breeze today. The yard went "over the top" yesterday with a subscription of over $530,000, and the loan committee at the yard hopes to see this amount doubled before the first of May. Only $500,000 however was needed to assure the yard of its flag.

Eight shops in the yard here "come through" with 100 per cent. subscription and several more are above the 75 per cent mark. There is keen rivalry among the workers to see who will subscribe the largest amount. One worker, earning $22 a week, took out a $1,000 bond.

UTICA GIRL SUICIDE BY LEAP IN NEW YORK

New York, April 18.—A well-dressed young woman, identified from notes of farewell as Miss Florence M. Tuckney of Utica, leaped to death from a fifth story window of the Park Avenue Hotel today.

A hurried written note to her mother, addressed to Mrs. A. Tuckney of Syracuse, read:

"Goodby, dear, true, good, best of mothers. How I wish I could talk with you. Goodbye, dear, true sisters. Goodby, brothers."

She had registered at the hotel yesterday afternoon.

Bride-to-Be Balks at Seedy Looks of Wooer

North Brookfield, April 18.—The correspondence method of getting a bride has proven a dismal failure to George Anderson of Chicago, former boy who was turned out of town by the police.

Miss Margaret Kay of Battle Creek, Mich., was the intended of his choice, but when she met him at the train she would not accept his proffered hand, refused to ride with him in his automobile and refused to have anything to do with him. When he attempted to meet some friends to marry him, Miss Kay refused to do this.

Margaret is employed at a rubber factory and Anderson is a plumber. He claims his views and dissent has made him unpopular with the girls and has asked the police to write her. She says she is not interested in him and has corresponded with him only to keep him from annoying her.

TO REVIEW EARLY DAYS OF SOUTH BOSTON'S LIFE

The Early Days of South Boston will be the subject of a talk to be given by Rev. Patrick B. Mowles, of the Church of the Gate of Heaven, South Boston, at the meeting of the Old Colony Memorial Association of South Boston, to be held at the Old Colony Memorial, Dorchester street, tomorrow evening. Father Mowles was chairman of the committee that raised $5,000 for the Old Colony Memorial.

Property Goes to Widow

Liberty Bonds are the real weapons for Victory

We have made a start on the long, hard road to Victory.

Our men are fighting at the front in France.

Our American industries have accomplished prodigious results in building up a war machine to furnish munitions and supplies.

But we have only begun.

We must do more and more.

This is not a war of armies but of nations in which every citizen must do his part.

Every worker in our industries is truly fighting in this war. Every man, woman and child who gives of substance and savings is adding to the national power.

The foundation of all our vast war-making machine is the Liberty Loan.

Money is needed to build more and more ships; to furnish food and guns and powder and transport and airplanes; to raise and equip new armies.

We must oversubscribe this Third Liberty Loan and do it quickly.

We must show the courage that is in us.

We must show a cheerful willingness to make sacrifices for our boys in the trenches.

"As the Twig Is Bent, the Tree's Inclined"

—Being a sermon to parents on the first long trouser suit, with a text from Common Sense.

WHEN your boy goes into his first long trouser suit!

A *milepost* on the long road to manhood.

An *event* of *prime importance* for both boy and parents.

A rare opportunity for wise guidance of youthful tastes.

The Boy—or, as we call him in long trousers, the "young man"—wants "snappy" fabrics, style lines full of "pep," a fit "like the paper on the wall."

And you, the parents, want good taste *plus* long service.

The opportunity—wisely grasped—is to start your boy in a Morse-Made suit.

He'll have "snap" and "pep," *without freakishness,* in rich fabrics and superbly youthful lines that save the best of the boy for his mother.

And *underneath* surface, fit and style will be all the enduring service that comes only from correct "inside" designing, and thorough, skilful tailoring.

In fact, a whole sermon on the *moral* effect of "tasteful" clothes is compressed in this bit of wisdom emphasized by 66 years of value giving:

DEMOCRACY BOSTON, THURSDAY, APRIL 18. LIBERTY

BAY STATE BOY AIDS IN TAKING PRISONER

"Yes, Dad, I Was a Little Nervous," Writes Walter Kelley to His Father

Maynard, April 18.—Private Walter J. Kelley, a former Maynard boy, now a member of Company E, 104th Infantry, 26th Division, American Expeditionary Forces, who was with the first American soldiers to go over the top and bring in a prisoner, writes of this thrilling experience in a letter just received by his parents, Mr. and Mrs. Fred Kelley of Pine street. The letter says:

"I am still at the rest camp after coming back from the trenches. Our company was the first to bring in a prisoner and maybe the first American soldiers to go over the top and come back with the goods.

"I was out in No Man's Land one night. We were fixing wires and were safe. Of course not quite as safe as if I was back home making wire fence. Our major, Major Campbell, said today, 'Boys, you sure came through with flying colors and I am proud of you.'

"Not so bad, folks. I hope the next time we go in we will come out with the same record. I guess we will, as all the names are O'Brien, McCarty or some such fighting name—like Kelley.

"Yes, dad, I was a little nervous, but I guess about anybody would be. That is the place to see if you have a yellow streak.

"I am 100 per cent. better in health than when I left the good old U. S. A."

TAFT SAYS AMERICA MUST SEND 5,000,000

Former President William H. Taft, in an address at Symphony Hall, declared that America should send at least 5,000,000 men across the seas. This, he said, would mean the hastening of the conflict's end.

"The United States will be called upon to furnish not only man-power, but food, munitions and war machinery," he emphasized. "We will have to do it. This is a war of long duration. Let's get an army that can beat the German army. The sooner we do this the sooner will the war end. Don't be satisfied with a million men."

Mr. Taft was a guest of the Bank Officers' Association of Boston.

MYSTERY WOMAN AT FLENTJE TRIAL

Said to Have Testified About Sergeant's Alleged Disloyal Utterances

By WILLIAM FLYNN.

Camp Devens, April 18.—The prosecution sprung a surprise in the court-martial of Sergeant Ernst L. Flentje of Cambridge, who is accused of disloyal utterances, by introducing almost at the end of the case a mysterious woman witness, whose testimony is said to have an important bearing on the case.

The young woman, a striking brunette, was dressed in the height of fashion, and testified behind closed doors. Neither her identity or her testimony was made public by the court. It was stated, however, that the young woman related to the court what Flentje is alleged to have said in a house in Cambridge. The principal witness for the defense whom the latter declared he had never seen the woman in his life.

The witnesses beside the young woman, all of whom were soldiers, has testified to unpatriotic statements Flentje is alleged to have made and the case is one of the most sensational that has yet been called to the attention of the authorities at this cantonment.

WORKED FOR BOSTON FIRMS.

Flentje, who is a sergeant in F Company of "Boston's Own," was formerly a machinist and millwright. Before he was drafted he was employed by several Greater Boston firms. The charges against him are among the most serious ever lodged against a soldier in the National Army.

Colonel Charles C. Smith of the302nd Infantry Regiment is president of the court. Lieutenant John H. Cummings, son of John W. Cummings of Fall River, is judge advocate and the associate judge advocate is Lieutenant Daniel W. Lance, former Representative from Worcester. Flentje is defended by Francis J. W. Ford of the Boston City Council who is assisted by Attorney William A. Parker of Boston and Lieutenant J. H. Clifford.

ALLEGED CRITICISMS.

Flentje is accused of violating the 62nd, 63d and 96th articles of war and in the specifications is alleged to have said, in effect:

"President Wilson is incapable. He is not man enough to stand up under the responsibility that has been thrust upon him. The President is the laughing stock of Germany.

"The United States had no business to enter the war. The Germans would have forgotten easily if the United States did not come in.

"Lieutenant Ball is a ——.

"I defy anyone to say anything against the Kaiser. If I ever have any children I hope they are born in Germany. The United States is England's tool in this war. I would sooner fight against England than any other country. Everything Germany has done in this war has been justified, including the sinking of the Lusitania, the massacre of the Armenians by the Turks and the invasion of Belgium."

ALLEGE CRITICISM OF U. S. ARMY.

Flentje is also accused of saying the Germans would laugh themselves to death when they saw the American army opposing them; that he hoped to get into enough trouble to be "busted"; that he intended to live in Germany after the war; that he had "no use for the tin soldiers at Ayer," and that there was a "barrel of Jack" in it for anyone who would blow up the Tampico oil wells. The prisoner is also alleged to have proposed a toast to the Kaiser, and is said to have stated that the United States would be better off under German rule, and that he intended to "lay down on his job."

The witnesses put on by the government were Mess-sergeant Howard C. Ells, Sergeant Thomas McCall, Sergeant William Maguire, Corporal Joseph F. Silva, all of F Company of "Boston's Own." Candidates Volney G. Rowbotham and Percival A. Wakeman of the 1st Company of the Third Officers' Training camp and the young woman.

SWEAR TO HEARING REMARKS.

The soldiers swore they had heard most of the statements alleged in the specifications uttered by Flentje in the company mess hall, recreation and sergeants' rooms between December 1, 1917, and March 10 of this year. Candidate Wakeman testified that Flentje spoke to him about the Tampico oil fields while walking along the main camp road between the Hostess House and the company barracks.

In response to a request from Lieutenant Cummings, Wakeman repeated the following conversation which is alleged to have passed between himself and Flentje at that time.

"There is a barrel of Jack in it for anyone who will blow up an oil field."

"How much is a barrel of Jack?" (Wakeman).

"About a million dollars."

"Who will pay it?"

"I can look after that."

"Do you mean the Tampico oil field?"

"Yes. They are the chief source of supplies for our allies. Are they not?"

BREAK IN CONVERSATION.

Wakeman said there was a pause at this point in the conversation and declared that Flentje then said, "I guess you are not interested."

Flentje, in his testimony, said that this conversation was brought about during a discussion between himself and Wakeman as to their going into the oil business together after the war and that reference to the Tampico oil fields was made as a result of an article which appeared in a popular weekly. He said the article described the oil fields and told of numerous attempts that had been made by Germany to destroy them. He said that he never intimated that he was the agency through which this money might be furnished.

Sergeant Maguire declared Flentje told him that if this country was fighting England all the Irishmen would be jumping off the East Boston docks to swim over there and get into it.

DENIES CHARGE OF MAGUIRE.

Flentje denied this statement and declared Maguire had stated that if this country was fighting England that he (Maguire) would jump off the East Boston docks, with a gun between his teeth and that all the "Yads" in the country would follow him.

Attorney Ford, in his cross-examination of the witnesses, brought out the fact that most of the statements attributed to Flentje were made during the course of arguments or discussions with the other men of the same company. The Government rested its case with the air chamber testimony of the mysterious young woman, and Flentje was then put on the stand in his own behalf.

He pleaded not guilty to all of the specifications and at the request of counsel took each of the specifications in turn and explained to the court the circumstance which led up to him being charged with those statements that he did not deny outright. Flentje told a straightforward story and was never at a loss for an answer to a question during his direct testimony.

RESPECTS WILSON, FLENTJE SAYS

The prisoner denied he said President Wilson was incapable. He said he had nothing but the highest respect for the Chief Executive, although admitted saying the President was a pacifist before this country went into the war. He said he based this statement on the fact that the President was re-elected by the slogan "He kept us out of war" and that there was a pacifist strain to some of the books the President had written and which he had read. He denied saying the President was the laughing stock of Germany and declared the statement that the President had sold out the United States on the Panama Canal question, credited to him, was untrue.

In referring to his alleged statement that the United States should never have entered the war Flentje stated he had said that if the United States had kept out of the war and devoted its time to raising a huge army and navy it would have been much easier for this country to step in at the end of the European war when the countries were tired out and then introduce its reforms.

ADMITS DEFENDING KAISER.

Flentje denied saying anything disrespectful about Lieutenant H. T. Ball and declared his statement defying anyone to say anything against the Kaiser was made during a discussion of the morals of the crowned heads and so-called aristocracy of Europe and had nothing to do with the Kaiser's nationality or position. He said he was arguing a point concerning the Kaiser's withered arm which he had investigated, and knew what he was talking about. He said those who brought the charges against him regarded the statement in the wrong light.

The prisoner admitted wearing a pin with the German and Austrian colors in the lapel of his coat while in front of the French relief quarters in Boylston street, but declared that was before the United States entered the war.

In claiming that the submarine warfare, the sinking of the Lusitania, the massacre of the Armenians and the invasion of Belgium were justified, Flentje said he was only pointing out the attitude of the German people, and that he was not stating his own opinions. This charge, he said, cropped out of a discussion of the various reasons for the tactics and strategy employed by the Germans to gain their object.

Flentje also declared that his statement about wishing to have his children born in Germany was a joke.

Round Up Five Men to Complete Jury in U. S. Court

Talesmen were scarce in the United States District Court and it was necessary to round up three men to complete a jury to try Alfred N. Butts of New Hedford, charged with aiding and abetting the sale of liquor to men in the military service.

The following men were found on the first floor of the Water street side of the Federal Building: George E. Russell of No. 23 Summer street, Hyslindale. John Honner, Henry Colby of No. 132 Dodge street, Beverly. Arthur E. Hall of No. 34 Ash street, Cambridge, and John J. Birmingham of No. 116 Hampshire street, Cambridge.

Russell and Honner were excused from serving. Russell told the court that he wanted to deposit a sum of money in a bank before it closed. As evidence he produced a large roll of bills.

Butts was found guilty of aiding and abetting. He will be sentenced probably today.

SAILORS HUSTLE TO GET BASE BALL TEAM

Plan Schedule of Games With College Nines and at Camp Devens

By PAUL F. WHELTON.

Aboard the Receiving Ship at Boston, April 18.—Undaunted by the fact that there is no longer an "unavailable list" of blueJackets at the pier, the baseball enthusiasts aboard ship are reorganizing their badly shattered forces and announce that they will put a "varsity" on the field the first of May.

First Class Printer Bill Glass, a former Boston newspaperman and semi-pro ball player, will manage the team, the candidates for which have been repairing daily to the "skin" diamond roughly laid out beside the ship's power-house.

While the team will be greatly handicapped through the frequent and unforecasted drafts, Manager Glass believes that an efficient organization can be maintained notwithstanding. To that end an excellent schedule has been arranged for the entire season, including games with Harvard, Yale, Brown, Navy Yard, Camp Devens and Camp Dix. The season will be opened on May 4 when the Receiving Ship crew of bull tossers takes the field against Harvard at Soldiers' Field.

Jack Barry's Navy Yard team and its downfall at their hands is the objective of the pier sailors, and the name of Long Erale Shore as moundman for the Navy Yard nine only spurs them to greater effort in their daily practice sessions.

The more promising among those trying out for positions on the "varsity" are Wilson of Boston, Carl Mays of Oklahoma, a cousin of the Red Sox twirler; Revolski of Mississippi, Roberts of Missouri, Leonard of California, Gleason, who was drafted from the New England League by the Pittsburgh Pirates, Hoffman and Martin of Texas, and Hennessey of Maine.

COMMISSARY SCHOOL AT PIER SEEKING RECRUITS

The Commissary School of the Naval Reserve Force, Commonwealth Pier, South Boston, Mass., has announced that it is in immediate need of men to enlist at this school. Vacancies exist in the following ratings.

Landsmen for Commissary Stewards 7
Landsmen for Bakers 7
Landsmen for Officers' Stewards 27
Landsmen for Officers' Cooks 20

Pay for these ratings being $22.60 per month.

Six bakers (pay for first class baker being $55.50 per month).

Ninety ships' cooks (pay in this rating being as follows: third class, $46.70 per month; second class, $52 per month; third class, $41 per month; fourth class, $35.50 per month).

In addition to the foregoing there is urgent need of colored mess attendants, and as many of them as apply, who are physically qualified, will be taken. The pay for this rating varies from $25.50 per month for third class to $41 per month for first class. Besides the regular pay, there is an allowance of up to $50 per month for dependents, according to relationship and number; insurance up to $10,000 at low cost—good after the war; a splendid opportunity for advancement and a chance to travel and see the world.

The age limit is eighteen to fifty-eight years, and applicants under twenty-one must furnish a birth certificate; those of the draft age a statement from their local selection board stating that they are not needed to fill any current quota.

Those wishing to take advantage of this opening should call at the Commissary School and see Assistant Paymaster O'Brien.

WARTIME RECIPE FOR GRAY HAIR

How to Make an Inexpensive Mixture That Will Darken Streaked or Faded Gray Hair.

Gray, streaked or faded hair can be immediately made black, brown or light brown, whichever shade you desire, by the use of the following remedy that you can make at home:

Merely get a small box of Orlex powder at any drug store. It costs only 25 cents, and no extras to buy. Dissolve it in one ounce of water and comb it through the hair. Full directions for use come in each box.

You need not hesitate to use Orlex, as a $100.00 gold bond comes in each box guaranteeing the user that Orlex powder does not contain silver, lead, zinc, sulphur, mercury, aniline, coal tar products or their derivatives.

It does not rub off, is not sticky or gummy and leaves the hair fluffy. It will make a gray haired person look twenty years younger. — Advertisement.

RHEUMATIC PAINS QUICKLY RELIEVED

As well as all other external aches and pains.

Stop that suffering by applying refreshing, relieving, *penetrating* Sloan's Liniment. Its counter-irritation quickly does away with swellings, inflammation, stiffness, bruises or soreness.

You don't rub it in—just apply and it *penetrates*. Clean, leaves no muss, won't stain skin. Economical, too. *Any* druggist will give you a very generous sized bottle. No increase in price —25c, 50c and $1.00.

Sloan's Liniment KILLS PAIN

Alkali Makes Soap Bad For Washing Hair

Most soaps and prepared shampoos contain too much alkali, which is very irritating, as it dries the scalp and makes the hair brittle.

The best thing to use is just plain mulsified cocoanut oil, for this is pure and entirely greaseless. It's very cheap, and beats the most expensive soaps or anything else all to pieces. You can get this at any drug store, and a few ounces will last the whole family for months.

Simply moisten the hair with water and rub in this oil, about a teaspoonful is all that is required. It makes an abundance of rich, creamy lather, cleanses thoroughly, and rinses out easily. The hair dries quickly and evenly, and is soft, fresh looking, bright, fluffy, wavy and easy to handle. Besides, it removes all traces of every particle of dust, dirt and dandruff.—Advertisement.

Wash Away Skin Sores

D. D. D., the liquid wash, has become a household word. It has proved itself a remarkable remedy. If you are a sufferer from skin diseases, including ulcers, pimples, scales, crusts or Eczema in any form, this remedy *will not disappoint* you. It has stood the test and today is the master preparation for all skin diseases. Try D. D. D. today. It is guaranteed. 85c, 60c and $1.00.

IF KIDNEYS ACT BAD TAKE SALTS

Says Backache is sign you have been eating too much meat.

When you wake up with backache and dull misery in the kidney region it generally means you have been eating too much meat, says a well-known authority. Meat forms uric acid, which overworks the kidneys in their effort to filter it from the blood, and they become sort of paralyzed and loggy. When your kidneys get sluggish and clog you must relieve them, like you relieve your bowels; removing all the body's urinous waste, else you have backache, sick headache, dizzy spells; your stomach sours, tongue is coated, and when the weather is bad you have rheumatic twinges. The urine is cloudy, full of sediment, channels often get sore, water scalds and you are obliged to seek relief two or three times during the night.

Either consult a good, reliable physician at once or get from your pharmacist about four ounces of Jad Salts; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salts is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to clean and stimulate sluggish kidneys, also to neutralize acids in the urine so it no longer irritates, thus ending bladder weakness.

Jad Salts is a life saver for regular meat eaters. It is inexpensive, cannot injure and makes a delightful effervescent lithia-water drink.—Advertisement.

SULLIVAN RESIGNATION REGRETTED BY ELEVATED

The executive committee of the board of directors of the Boston Elevated Railway Company at a meeting held today accepted the resignation of Colonel Thomas F. Sullivan and passed the following vote in expression of their appreciation of the excellence of his service with the company and their regret at its loss:

"Voted: To authorize the president to accept the resignation of Colonel Thomas F. Sullivan, effective April 18, 1918, on account of his appointment to the position of Commissioner of Public Works, City of Boston, and that, while the company regrets to lose his services and appreciates his faithful attendance to duty for twenty years, it is equally glad that his ability, integrity and capacity for work are recognized for the important position to which he has been appointed."

SAGE TEA TURNS GRAY HAIR DARK

It's Grandmother's recipe to bring color, lustre and youthfulness to hair when faded, streaked or gray.

That beautiful, even shade of dark, glossy hair can only be had by brewing a mixture of Sage Tea and Sulphur. Your hair is your charm. It makes or mars the face. When it fades, turns gray or streaked, just an application or two of Sage and Sulphur enhances its appearance a hundredfold.

Don't bother to prepare the mixture; you can get this famous old recipe improved by the addition of other ingredients at a small cost, all ready for use. It is called Wyeth's Sage and Sulphur Compound. This can always be depended upon to bring back the natural color and lustre of your hair.

Everybody uses "Wyeth's" Sage and Sulphur Compound now because it darkens so naturally and evenly that nobody can tell it has been applied. You simply dampen a sponge or soft brush with it and draw this through the hair, taking one small strand at a time; by morning the gray hair has disappeared, and after another application it becomes beautifully dark and appears glossy and lustrous. This ready-to-use preparation is a delightful toilet requisite for those who desire dark hair and a youthful appearance. It is not intended for the cure, mitigation or prevention of disease.—Advertisement.

CHAPLAIN FROM NEW BEDFORD PROVES HERO

By BERT FORD.
International News Service Staff Correspondent.

With the American Army in France, April 18.—Rev. John de Valles, a Knights of Columbus chaplain from New Bedford, Mass., proved himself one of the heroes in the recent fighting on the American front. Although under heavy artillery and machine gun fire he gave aid and comfort to the wounded in No Man's Land.

Disregarding the danger, Father de Valles went among the men cheering them up and giving them cigarettes. So greatly did he endear himself to the Americans that they now call him the "guardian angel."

An American captain successfully led his men over the top twice in twenty-four hours in assist French troops.

One of the smallest men of a certain regiment became exhausted carrying in the wounded. His hands became so sore from holding stretcher handles that he could not keep a grip on them, so he tied them to his wrists with wire that he might continue. It was a long journey back to the dressing stations.

An American private, though wounded, refused to quit fighting until the end of the battle. Then it was found that he had thirty-nine wounds, all from shrapnel.

Nine Americans were compelled to flee from a listening point. A shell burst near, burning two of them to the waist. They were dug out by their comrades and all reached the American first lines in safety.

BIG LOAN PARADE IN CAMBRIDGE SATURDAY

Cambridge has made plans for a Big Liberty Loan parade Saturday, when it is expected that the State guard organization of that city and men from the radio school, as well as many commercial and civic bodies, will be in line. Former Mayor Walter C. Wardwell will be chief marshal and Capt. Richard W. Sutton will be chief of staff.

HAPPENINGS IN SOCIETY

Military and Social Leaders to See First Production of "For the Colors"

By KATHARINE ALDEN

A military and social event of interest was the initial performance of "For the Colors" at the Park Square Theatre this afternoon at 2 o'clock. Governor Mc-Call, Rear Admiral Spencer Wood, Brigadier-General John A. Johnston, Commandant Rush, officers from their respective staffs, and about 500 soldiers and sailors from the training camps were there to pass judgment upon the play, both as patriotic propaganda and entertainment for our men in training.

There is a long list of patronesses: Mrs. Harcourt Amory, Mrs. William Amory, Mrs. Charles Bird, Mrs. William C. Endicott, Mrs. J. Murray Forbes, Mrs. Reginald T. Flitz, Mrs. Augustus Hemenway, Mrs. John C. Phillips, Mrs. James J. Peters, Mrs. Joseph Quincy, Mrs. Alden Thornike, Mrs. Roger Wolcott, Mrs. Thomas Sherwin, Mrs. Bayard Warren, Mrs. Nathaniel Simpkins, Mrs. S. D. Warren, and Mrs. William D. Richardson.

* * *

Mrs. Harriet U. Spofford of Brookline is devoting the proceeds from the course of lectures which she has been giving this Winter to the French Orphan Fund. The last talk on the appreciation of music is given today at the home of Mrs. Edward C. Robinson, No. 24 Winthrop road, Brookline, near the corner of Gardner road. The program is by Miss Laura Kelsey, Mrs. Adelaide Sutherland, Mrs. Florence Mira Marion Shortlouse and Mrs. Spofford.

* * *

A dance will be given tonight in Whitney Hall, Brookline, for the benefit of the free social fund of the Brookline Special Aid Society. Major Melville M. Hart of the Fourth Canadian Mounted Rifles, a veteran of the Western front, who has been decorated with military cross and bar, will speak during the dance. The patronesses are Mrs. Theodore Bremer, Mrs. William S. Brooks, Mrs. John H. Harwood, Mrs. Frederick W. Paine, Mrs. Charles D. Voorhis, Mrs. Barrett Wendell, Mrs. Galen Stone, Mrs. Charles B. Perkins and Max Whiting.

* * *

John Masefield lectures at the Copley-Plaza this afternoon at 3:30 o'clock, under the auspices of Miss Hersey's School Association, for the benefit of the Red Cross and other war relief work. Mr. Masefield is the official British

Miss Susan Dabney, society girl who is active in Red Cross and Liberty Loan Campaigns. Photo by Bachrach.

blossom of the war and will tell her experiences on three visits to France. Members of the committee are Miss Mary B. Holmes, Mrs. Alexander Hemenway, Mrs. Benjamin Dudley, Mrs. Charles Briggs, Mrs. John W. Twomey and Mrs. W. Duncan.

HERE'S A CHANCE FOR A TANK RIDE TO BERLIN

Men who are likely to make good soldiers are wanted for the tank service, was stated today by Lieutenant J. W. Crosby, recruiting officer for this service at No. 2 Tremont row. Mechanics and workmen in other trades are also wanted.

"Enlistments for the service are coming along with a spurt," said the lieutenant today. "That tank Amerlein, when it gets in good working order will make popular our present slogan, 'Why walk to Berlin, when you can ride on a tank?'"

GASTON WARNS OF FAMINE PERIL

The fuel shortage in Massachusetts last Winter will be trifling in comparison with the food scarcity and deprivation which will be felt next Winter, unless this nation solves the problem in this State is solved.

This sensational war made today by William A. Gaston, former lieutenant governor of the State, and chairman of the National Democratic Bank and Liberty Loan committee of the United States Public Service.

Mr. Gaston was the only speaker at a meeting of county secretarial agents of the Public Service held for the purpose of discussing the assignment of labor for the agricultural needs of the State.

He declared that volunteering for farm labor was equally as patriotic as going into the service, and stated that all men between the ages of 18 and 45 who were not farm workers would receive a questionnaire.

"Every person answering that a large number of persons will be available for farm work will be asked to state how many and the time when they will be available," said Mr. Gaston. "Then the Public Service Reserve will be called upon to furnish the men. The Committee on Public Information, under the direction of Henry Greenleaf Pearson, chairman of the committee on education, has already issued a pamphlet on the subject."

SON ENLISTS ON ADVICE FROM FATHER IN FRANCE

A letter received from an aged father in France by Lieutenant Commander Edward Ellsworth Hale, U. S. N., son of Edward Everett Hale, author of "The Man Without a Country," has resulted in the enlistment of the son in the navy. The letter, which was received by Lieutenant Hale at his home, 120 Marlborough street, Boston, urged the son to enlist in the navy, and stated that the writer would be glad to have his son in the service.

BETTER THAN CALOMEL

Thousands Have Discovered Dr. Edwards' Olive Tablets are a Harmless Substitute.

Dr. Edwards' Olive Tablets are entirely free from calomel, but have the same beneficial effect on the liver. They are purely vegetable, and their combination will act on your liver and bowels more gently, yet surely than calomel. They do not gripe nor cause nausea or sickness. Their action is entirely different. Just one little sugar-coated tablet at bedtime, with a swallow of water, is all you need to get the desired effect. You will know them by their olive color. Take only as directed. Don't expect miracles from them, but have an honest trial. Then if you are not entirely satisfied with the results you have obtained, return the empty package to your druggist and get your money back. Calomel sometimes plays havoc with the system, but Dr. Edwards' Olive Tablets are safe. So do children. It is best not to take calomel, but to let Dr. Edwards' Olive Tablets take its place.

Most headaches, dizziness and sick spells are caused from constipation and a disordered liver. Try them tonight. Price 15c and 30c per box. All druggists.—Advertisement.

KILLED IN EAST BOSTON HOME BY ESCAPING GAS

John B. Fuller, lieutenant of Neptune Saratoga street, East Boston, was found unconscious in his room at his home at 4 o'clock this morning by Henry Wagner, house committee of the club.

Good Clothes
and plenty of 'em

It is extremely gratifying to us—and a source of great satisfaction to our customers, also—that in these times we can still say, as we always have, "Good Clothes and nothing else." For even the best intentioned dealer finds it a mighty tough proposition nowadays to procure merchandise of old-time quality.

And equally pleasing is the fact that we have *plenty* of Good Clothes. Our foresight, our spot-cash buying and our pleasant relations with the country's biggest and most resourceful makers enable us to offer a stock as large and a variety as wide as in normal times.

To the man who wants a new suit of clothes, these facts are of timely interest and more than ordinary importance. For they point out the store that in these days of unprecedented scarcity is still on a normal basis as to quantity as well as quality of merchandise.

But you'd better come early for one of these

Kuppenheimer Suits, $25 to $48

For the better the merchandise, the scarcer it is. Kuppenheimer Clothes being the finest ready-for-service garments obtainable are naturally in great demand and there may not be enough to go around. The high Kuppenheimer standards have not been lowered one iota, and the prices have advanced only slightly. They start at $25, but you'll probably want to pay a little more, say $30 or .....

BROCKTON BOYS AT AYER WILL MARCH HERE

By WILLIAM FLYNN.

Camp Devens, Ayer, April 18.—The third battalion of the 301st Colors Regiment (302d Infantry) under the command of Major Roy B. Rose, is going to Boston tomorrow to march in the Patriots' Day parade with the Boston's Own." This announcement was made today at division headquarters. Most of the men in this battalion come from Brockton and vicinity. The rest of the 302d Regiment is scheduled to parade in Fall River and New Bedford.

The regiment was one fighting a sham battle two miles from Shirley today. Two attacks made made by the first battalion and the men used rattles and sirens to simulate machine guns and the whistling of shells. Several other units in camp were also out on hikes and maneuvers all morning.

LIEUTENANTS PROMOTED.

The promotions of four second lieutenants in the quartermaster's corps to the rank of first lieutenant were also announced here today. They were Second Lieutenants Elbert J. Travers, Bernard J. Flinn, James F. Greene and LeBaron B. Briggs, Jr.

The men in several organizations in the cantonment are wearing gas masks in exercising duty on. Ernest J. Frentzo, the barber to 6 company of Boston's Own, has been a busy man his mask, while shaving and cutting the hair of members in the company. Lieutenant Franklin L. Coombs, the gas officer of the 302d Field Artillery, gives much trouble to the regiment with a whistle. When he blows the whistle the men within hearing drop what ever they are doing and don their gas masks. From the clerks to regimental headquarters are issued to the men. Many of the men have been overcome and are ready to be sent to the base hospitals, but the majority of cases are mild. If this goes the whistle ceases to sound as Vaughan.

Mounted orderlies are also compelled to wear masks even when they are riding about the cantonment.

HIT ENEMY BATTERIES.

The wooden camouflage guns, formerly used by the artillery for instruction purposes, are now being used as targets for the three-inch guns on the artillery range. The guns are arranged to represent enemy batteries by Lieutenant Herman H. Rowe.

Practice with the 4.7 howitzers is expected to be started by the members of the 303rd Field Artillery on Saturday morning. They will approximately the same range as the light artillery men except that the firing point is located on the opposite side of Bell Pond.

Captain Norman Bonnell of the 302d Field Artillery was made in the guard of fire at Fort Hill, Okla.

ABANDONED AMERICAN SCHOONER IS SIGHTED

Washington, April 18.—Warnings and apparently abandoned the American schooner Commodore Hazard of 1,000 tons, bound from Boston for Mobile, April 12, and a disabled to the State Department today from the American consul at Vaughan.

Governor Signs Bill to Raise Boston Teachers' Pay

Governor McCall today signed the bill providing an increase in pay for teachers in the public schools of Boston.

Miss Cora Bigelow, president of the Boston Teachers' Club; Miss Mabel N. Anderson, chairman of the publicity committee, and Miss A. E. Flagg, editor of the Boston Teachers' News Bulletin, were present, and the Governor gave each a pen after signing the bill.

The bill provides that an increase in the city tax rate of ten cents this year, forty cents next year and fifty cents in 1920 on each $1,000 of taxable property in the city shall go toward the payment of the increased salaries, the schedule for which has already been worked out by the school committee and published.

MONTGOMERY ROLLINS DEAD

Montgomery Rollins, a resident of Chestnut Hill for years, is dead at his home, following a brief attack of pneumonia. Mr. Rollins was publicity director for the Liberty Loan Committee of New Hampshire, and also chairman of the State commission caring for the war dependents. He was a brother of the late Frank W. Rollins, former Governor of New Hampshire.

Mr. Rollins was born in Concord, N. H., August 22, 1868. He attended the Massachusetts Institute of Technology. Mr. Rollins was actively engaged in business until 1902, when he retired, and devoted his life to his literary work, which included public questions on financial subjects.

Mr. Rollins was a member of the firm of Rollins & Sons until 1898, when he organized the firm of Montgomery Rollins & Co., with which he was identified until he retired.

Mr. Rollins in the past few years has made his home at his country place at Dover, N. H., where he was active in all local and State affairs. During the last few months he has devoted his entire attention, as member of the State Liberty Loan Committee of New Hampshire, to that committee.

As publicity director of the New Hampshire committee Mr. Rollins worked untiringly preparing for the present campaign. He wrote a series of short stories to aid the campaign. They are now running in practically every paper in New Hampshire.

Mr. Rollins is survived by his widow and two daughters, Mrs. Joan Holbrook and Miss Sadie Rollins, all of Boston.

MUSIC TO SPEED UP SHOE WORKERS IN LYNN SHOP

The latest innovation in speeding up war work has been put into effect at Lynn, where a piano and a woman to play it were today installed in the stitching room of a shoe factory.

CYCLOPS DASHED ON REEF, THEORY OF NAVY MEN

By International News Service.

Washington, April 18.—The Navy Department today was still without any information regarding the disappearance of the collier Cyclops. Inquiries are being made at every point the missing vessel would have passed from Rio to the Atlantic port to which she was bound.

The conviction grows that the collier struck on one of the many rocky islands in the Bahamas and foundered with all on board, yet there are many naval officials who still cling to a mystery theory. They point to the fact that there were fifty sailors on board who had been court-martialed and sentenced to various terms of imprisonment for violation of naval orders, two who had been sentenced to death for murder.

The possibility for the malcontents to have mutinied if the guard had relaxed its vigilance and to have obtained possession of the vessel. But the men who hold this theory also are puzzled as to what might have happened after such action, as there was only a scanty supply of fuel, far too little to have carried the collier across the ocean.

Navy chiefs are interested in the statements attributed to Mrs. Selma W. Worley, wife of Lieutenant-Commander George Wichmann Worley, commander of the Cyclops, that the mystery would be cleared within twenty-four hours and that all on board were safe.

This statement, made in Norfolk, was said to be built on the hope that the Cyclops crew was taken off by a vessel which had no wireless on board. Naval officers do not believe this likely.

Investigation is also being made of the story told by Joseph Hinton at Annapolis that the steamship Limmoor last week passed two overturned lifeboats, which he thought might have been from the Cyclops, two days out from the Virginia Capes.

Amusements. Amusements. Amusements. Amusements. Amusements. Amusements. Amusements. Amusements.

NEW YORK AND BOSTON DRAMATIC CRITICS AGREE

Not one dissenting voice in all the reviews of D. W. Griffith's master production, "Hearts of the World," now at the Majestic Theatre.

NEW YORK WORLD
"'Hearts of the World' is a world drama; it goes straight to the heart."

NEW YORK TIMES
"One would have to write columns to give any idea of the scenes and incidents."

NEW YORK HERALD
"Never before has New York seen anything to equal this tremendous production."

NEW YORK GLOBE
"More action, more beautiful scenes, more magnificent acting than you will get in a dozen so-called features.'"

BOSTON GLOBE
"More action and thrill and more realism than has ever before been revealed."

BOSTON POST
"'Hearts of the World' eclipses all of D. W. Griffith's former efforts."

BOSTON ADVERTISER
"Griffith scores triumph. Holds audience at Majestic Theatre enthralled."

BOSTON HERALD
"Griffith's film is a masterpiece. The acting throughout is of the best. Makes a stirring patriotic appeal."

BOSTON TRAVELER
"Majestic Theatre crowded to its utmost capacity. The large audience thrilled and inspired. Every man, woman and child was roused to the fever pitch of excitement."

BOSTON AMERICAN
"Like former Griffith pictures, this was mounted on a grand scale. A large orchestra performed a brilliant score. The production is distinguished by very wonderful acting."

EX-MACKS PROVIDE PUNCH

Schang, Mclnnis and Strunk Already Showing Value as Members of Red Sox

By NICK FLATLEY.

The first double-header of the season was planted this a. m. by the cold showers and chiller winds that swept down over the formerly fair city. Boston's first touch of real baseball Spring made the fourth and final contest of the Athletic series out of the question, and sometime in the golden Summer one of those bargains affairs with plenty of time, owing to extra daylight, looms ahead.

A postponement at this particular time doesn't worry the director of Sox affairs at all, in fact it sort of pleases him. It leaves him with his four big pitchers intact for the approaching tussle with the New York Yanks, a team of good hitting possibilities that is just naturally must be considered a pennant possibility.

EX-MACKMEN SHOW VALUE.

It is Barrow's intention, as much as possible, to carry on with Ruth, Leonard, Mays and Bush, though, of course, the time is coming when he will have to break through that rule. But a postponement just now averts that procedure.

Even thus early the value of the ultra-priced offensive trio purchased from the Athletics is being demonstrated. McInnis, Strunk and Schang, with their various hits, won yesterday's ball game. They came through in the pinch, whichever way you look at it, at the proper time.

The dangerous war clubs of these three redoubtables are apparently going to deface from "Dan" Sparta's face the fear that was born when Duffy Lewis, one of clean-uppers, entered the service.

AWAY TO FLYING START.

Schang, by his spectacular windup punch yesterday, got away to a more startling start than his brother-in-law Mackinaw, but in all three games played to date Stuffy and Wally have been pounding the hostile defenses.

As far as three days observation can prove, the Sox team is going to be in the race all the way down the line, the few glaring accidents to any of the regulars "2-a-week" line, it might be mentioned, is nothing to brag about, but the Stock troops, as you might say, look very good.

The fate of the team in no small manner rests on the plaster cast mould of Arlington David Shean. If that young man can go through as he has started, all will be serene. Nothing better than his second basing could be desired. David is a veteran, as baseball lives go, but has tackled this new job with all the enthusiasm of youth.

The future of John McInnis at third base is still a puzzle. Stuffy has handled what chances he's had thus far in approved style, and naturally is gaining confidence in himself daily there at the hot corner.

STECHER IN HUB AND IN SHAPE FOR BALKAN

Joe Stecher declares he will prove tonight at the Grand Opera House that his boa-constrictor attack, i. e., scissors hold, is as good as ever in effectiveness despite the belief of Yousouf Hussane that he has perfected a block for the deadly grip.

Further, Stecher says that while the Balkan gave him a terrific battle in New York some six weeks ago, he feels sure he will win decisively, although he is free to confess Hussane is about as tough a customer as he ever hooked up with.

Stecher reached the Hub this morning with his brother, Anton, who is looking after his affairs. Joe declares he is in the best of shape and that tonight's contest will prove a stepping stone to the recovery of the world's heavyweight championship.

Hussane, too, is confident and is sure he will give the Nebraskan a battle he will always remember. Both wrestlers are pleased over the Liberty Bond purse.

The preliminary will be a finish match, without time limit, between Joe Willis, who is in the draft, and Nick Bosinis, fast young Greek.

Jap Cueist Wins Game.

New York, April 18.—Scores in the 18.2 balkline billiard tournament: Yamanda 500, Cochran 48. Cochran 500, Schaefer 33.

Corbett's Corner

By JAMES J. CORBETT.

Jess Willard's confession that he was nearly thirty-seven years old when he won the heavyweight championship should encourage those who feel that they are on the down grade physically after they pass thirty. Willard's feat in dominating the pugilistic world around the age of forty means that almost any man, who lives carefully, can carry his physical powers far into middle life.

Willard, through his own admission of an age ten years greater than the records show, has made himself one of the most remarkable figures the sporting world ever has known.

The general belief has been that a man who expects to become a topnotcher among the boxers must begin his fistic schooling in his teens—or very soon afterward.

The thought that a man could take up boxing beyond thirty and rise to the championship never had been conceived. It was considered absurd. Yet Willard has accomplished that very "impossible" feat.

The giant Kansan began his boxing career in 1911—at a time when he was about thirty-three years of age. At that time he never had had a boxing glove on his hand.

The idea of becoming a pugilistic warrior never had occurred to him. But when Jack Johnson whipped Jim Jeffries in 1910 and the hunt for a "white hope" began, a boxing enthusiast saw Willard.

PICKED TO BEAT JOHNSON.

The huge frame of the cowboy and his far-famed strength made the enthusiast feel that if any man could dethrone Johnson that man was Jess Willard.

Willard was approached on the subject of becoming a boxer, thought little of the idea at first but changed his mind—and in 1911 started on the career which four years later made him the king of pugilism.

Bob Fitzsimmons held the record up to Willard's time. Bob, who was born in 1863, won the title in 1897 and was just about thirty-four years old at that time.

John L. Sullivan, born in 1858, won the championship in 1882 and held it until he was thirty-four years old.

I became champion at twenty-six and was beaten by Fitz five years later.

Jim Jeffries annexed the crown when he was twenty-four and retired at thirty.

At thirty-five Jeff attempted to "come back"—and failed.

JOHNSON'S AGE A MYSTERY.

Just how old Jack Johnson was at the time he gained the technical championship by defeating Tommy Burns in 1908, is a mystery. The records give Johnson's birthdate as March 31, 1878, and he won from Burns on Christmas Day, 1908.

That would make Johnson thirty, but the negro frequently declared that no one had the authentic date of his birth and that he really believed it was 1875 and not 1878.

That being true, Johnson was thirty-three when he won from Burns, thirty-five when he triumphed over Jeffries, and about forty when Willard defeated him in Havana.

Ring history shows that most heavies do not reach their real prime until between twenty-five and thirty and that they can put up some great fight up to the age of thirty-five.

But in the smaller divisions a condition exactly opposite exists. The little fellows are at their best between nineteen and twenty-five and begin to slip rapidly afterward. At twenty-eight or so, when the heavies are still going great, the little men are about through.

MANY YOUNG CHAMPIONS.

Benny Leonard won his championship at twenty-one while Johnny Kilbane was twenty-three at the time he defeated Abe Attell. Pete Herman, the bantamchamp, leaped to the top at twenty, while Jimmy Wilde, the British flyweight, is only about twenty-one.

Terry McGovern was nineteen when he became bantam champion and only twenty when he won the featherweight crown. At twenty-one Terry was an ex-champion, due to a knockout defeat at the hands of the twenty-one-year-old Young Corbett.

Frank Erne won the featherweight title at twenty-one and the lightweight honors at twenty-four.

Jack McAuliffe became the king of the lightweights at nineteen and retired undefeated at thirty. Kid Lavigne succeeded him at twenty-three.

George Dixon established rivals to the featherweight crown at twenty, so did Abe Attell. Johnny Coulon came to the front of the bantam division at twenty-one.

DRAFT NOTICE IS SENT TO PITCHER ALEXANDER

Chicago, April 18.—Officials of the Chicago Cubs' baseball team were notified today that the native ability Pitcher Grover Cleveland Alexander to Camp Funston with the draft quota April 30 is on the way from the state of Nebraska.

GET Cubs

Kid Lee, the Chelsea boxer, deserves a lot of credit for not accepting $100 to "lie down" in a battle the other night. He lost the battle, but showed that he believes in boxing on the level. If some managers of boxers do not.
—Dan Saunders in the Globe.

The above, we believe, deserves a little more notice than is being printed about it, and for the sake of the game the "fans" and the clubs we feel duty bound to get out our trusty sledge for a few soft blows at least.

Who is the manager in the case? Why not print his name? Why not let the "fans" know?

The boxing game would be a lot healthier if some of these so called managers were forced to get out and earn an honest living.

So, Dan, if you don't care to print the name of this "ring rat-ler" kindly pass the word along and we will see that he gets just a little publicity.

* * *

Poor old Porky Flynn! He hasn't gone back much—not to Winthrop—but we hope that it will not be our misfortune to sit through another session like the affair at the Arena.

* * *

If Young Britt doesn't develop another attack of "whatevertis," the old skating rink should be well packed next Tuesday.

* * *

From the way the Athletics bat and run the bases, one would think there was a war tax imposed on players who score runs.

* * *

If baseball officials paid as much attention to pleasing the public as they do to seeing they don't get stuck any on the war tax, the game's popularity would increase by leaps and bounds, as they say.

LOTS OF BOXING ON MENU FOR HOLIDAY

By J. P. MURPHY.

Bay State ring followers will be served with three attractive boxing cards on the holiday night. Shows are billed at the Commercial A. A., West End, Lawrence and New Bedford.

The Commercial A. C. will present an all-star card. It consists of four ten-round bouts, with one of them might be booked as a feature attraction at one of the out-of-town clubs. Kenny Lynch, lightweight of New Bedford, who has been dropping them right and left since his entrance into professional circles, meets Teddy Murphy of the West End in the opener. Teddy's admirers are looking for him to clear one of Tinson's dozen comeback aspirants, and Kid Lee of Chelsea, Monday night, in fact, many of them believe that his tenure West End youngster knows entirely too much for the little Whaler. He that as it may, all agree that Murphy is in for a busy evening.

Charley De Angelos of Revere and Jack McCormack of East Boston are to be the second ten-rounder. The latter out to bring to the fight fans some of Manchester's real boxing. Dawnes of South Boston, while the concluding number will have as principals Young Shultz of Somerville, N. H., and Dave Powers, Malden, auburn-top.

Three ten-rounders and a six-round semi-finals are on tap for the members of the Unity Club, Lawrence. The combinations in the ten-round bouts will be Kid Fabare of Manchester, N. H. and Joe Lewis of Lawrence; Billy Roberts of the Battle School and Gerard Gilson, and Young Cimbers of Manchester.

New Bedford's reputation for first-class boxing shows should be given a substantial boost when Joe Ryan, New Bedford's pet Kid Williams, four rounds, clashes one of the best welterweights in the business, Meats Al Smith, Providence, in the star ten-round event. It is an interesting contest, the winner being booked to meet Kid Felix Herman later Tay

C. NINE IN TIP-TOP TRIM FOR BROWN GAME

The Boston College nine has its first call on Alumni Field today and will take its fine condition and the team will undergo a stiff practice in preparation for the opening game of the campaign with Brown, Patriots' Day. Captain Gildea said especial attention to the battery men and Jimmy Fitzpatrick, veteran portside hurler, Boyce, and Murray were to work with Urban and O'Hagan. Fitzpatrick is slated to start against Brown.

McCarthy, utility infielder, split his finger while batting a fast grounder and will be out of the game for a few weeks.

The Newport Naval Reserves will visit Alumni Field Saturday. The proceeds of the game go to the Naval Welfare League.

BATCHELDER BACK IN HARVARD FIRST EIGHT

Another shift has been recorded in the Harvard varsity crew. Charley Batchelder succeeding Johnny Linder. This pair exchanged places a week ago, but Linder slipped back again, Batchelder's return caused Stevens to be shifted from No. 4 to No. 3 in order to make way for the newcomer. The present lineup of the varsity eight is: Stroke, Captain Emmett; 7, Whitman; 6, Withington; 5, Parkman; 4, Batchelder; 3, Stevens; 2, Coleman; bow, Bowen; cox, Reynders.

By Saturday Coach Haines will be able to definitely decide the order for the Princeton race April 27.

By HUGH S. FULLERTON.

Pitching, as usual, decides the complexion of the game. Batting is valuable in the scheme of things the pitcher doing the least valuable in offensive work, becomes the most valuable in defense.

There are times when the pitcher's value is equal to the offensive value of the entire opposing team. There are times when one pitcher alone raises a team from a second division to near a championship team. There are times, too, when a pitcher by one outing destroys a team's chances of a championship to nothing.

In computing the value of pitchers we must figure on the batting strength we are facing in this department, and this year we discover that the hitting power of Ruth, Mays and Leonard give the Red Sox the lead over Chicago in pitching strength, although on sheer pitching ability the White Sox hold a slight advantage.

It is easy to find a pitching staff that can help the team by its hitting, and Boston has a big lead over the White Sox here.

The strength of Cleveland is rather more than I expected and this puts the Ohioans figure ahead of Washington for the first time.

Washington holds up on the still great strength of Johnson, but the falling off with it certain to have a short-handed pitching corps. Its is figuring on using four men practically all the time, and the chances of injuries, or going stale, makes for reduced value all around.

The fact that the White and Red Hose both fear the New York team is evidenced by the way they have studied the pitching staff carefully. It is stronger at first glance and it is liable to be peculiarly effective against Cleveland's team this season.

It needs a little added strength but it is a dangerous staff if Huggins can get the best out of the men and get four of them into top condition at once.

As the National, Chicago leads by a wide margin, due to the purchase of Alexander and Tyler, who added to the already strong staff, make the Cubs very formidable as a defensive team. They are extremely weak in attack and Mitchell has changed nothing since this by excessive pitching strength.

The Giants, although passed by the Cubs, have gained strength. Barnes should make a great man for them. Cincinnati has more pitching strength than one would suppose, but, Toney gone, Mathewson has a big problem.

The Cards have made a desperate effort to overwhelm the league by sheer strength of numbers. The team has seventeen pitchers to select from, but still leaves a big hole in the strength of Hughes and Nehf.

Of the youngsters in the National, Ray Herseher of the Reds, Rixey of Phillies and Howard of the Cards look good.

(Copyright, 1918, by the Bell Syndicate, Inc.)

GERMANY SCHAEFER IS LANDED BY LEE FOHL

Cleveland, April 18.—Herman (Germany) Schaefer, former Detroit infielder and coach, has been coach of the New York Giants the past two seasons, has signed to serve in a like capacity by Manager Fohl of the Indians. Schaefer will join the locals at once.

Infielder Eddie Onslow, with Providence last season, has also come to terms with Cleveland. He played with Detroit the last time he was in the American League.

HUGHES ON EDGE TO TAKE SHOT AT PHILLIES

Addition of Herzog Has Made Braves New Team; Buck Star in 14-2 Victory

Philadelphia, April 18.—Tris Thomas Hughes has had been making until he fell not exactly right to do any Brave pitching, announced today that he was ready, and accordingly was warmed up to go out after the Phillies in the third game of the series.

The addition of Charles Dennis Herzog seems to have made a complete new team of the Stallings troops, and that is what confident they are more from the Pat Moran fallen army to other parts.

Art Nehf, Braves pitcher young left-hander, who supported by the revised Stallings league Hon. Charles Herzog included, has a snap landing right side up in the second game.

The tally was the indirect one of 14 to 2. Thomas Pat Moran's Indianapolis recruit, and Woodward who pitched for the New Haven Eastern League's outfit last season and who mounted the hillock at the end of the fifth frame, was likewise slaughtered.

The Braves tallied four runs in the first and two in the second. Tuesday Hughes let go for for Nehf and was relieved.

With Herzog in the game, reverting at short and batting just as swiftly and as accurately as he did when he filled the position for Cincinnati two Summers ago, the Braves looked far and away better than they did opening day.

Herzog batted around. He had the distinction of driving in one of Braves' first run, following up Maranville's single to left in the first inning with a stunning double, by sending on a line to left. Thereafter Herzog batted thrice.

On the defense Buck played a whale of a game. He accepted his eight chances without marring the symmetry of a minute. Henry made two errors, one at second and the other over in field territory that were inexcusable. Otherwise he was in fine form for his first game for the Hub.

Nehf looked as good as Hughes and Johnny Rawlings caught his pitches splendidly. Rawlings batted for Powell and Henry for safety.

Hussey came off four singles, in addition to his double. Red Smith served in four singles and Wortland garnered a double and two singles.

It was thrilling and not Cleveland at all to see Ray Chapman's name added to the home scores. Such failed to come back with another clean put-out, but he made up for it in other chances. However his two hits came at right time.

DRAFT BOARD SPURNS RUBE MARQUARD'S PLEA

New York, April 18.—Richard Rube Marquard's claims for exemption from the draft were denied today. The board also denied the claims of Ralph Pinelli, Yankee outfielder, and Ralph Young, baseball umpire, for exemption under the draft rules.

Marquard, in his questionnaire, said he had a wife and a baby to support. His wife, Blanche Marquard, testified. Ralph earned $7,500 in 1918, and had been out of work for a short time.

BUNTS AND BINGLES

By H. W. LANIGAN.

BETSY LEONARD died in the wigwam at Pittsfield yesterday after an illness of three weeks. He was born in Pittsfield 70 years ago and had been connected with baseball for many years. Leonard served as umpire in the National League for a short time, but about another that game to get in the.

* * *

LEE KOPP comes through for C. Mack, and Walter Leonard, who has been with the Hartford team of the Eastern League, has been purchased by the Athletics. Leonard is a pitcher and is said to be a good one. Kopp is a first baseman and batted .300 last season. He is also a good fielder. Manager Mack has been on the lookout for a first baseman since Stuffy McInnis was traded away.

* * *

JESS BARNES made a glistening start in the National League race when he pitched a fine game against the Cincinnati Reds yesterday.

* * *

BARNES HAILS from Bloomington, Ill. That city has produced two of the best baseball pitchers Bloomington, Ill., ever had. Barnes and Walter Johnson. Johnson was born in Bloomington, Ill., and learned baseball there. Barnes broke into baseball there. Later Barnes went to Logansport, Ind., where he developed into a star. Then he went to Salt Lake City, Utah, where he got the big league contract.

* * *

THAT WAS a wonderful Texas game that the Cincinnati Reds played with the Chicago Cubs. The Cubs made 20 hits off Fred Toney, who pitched for the Reds, and Toney made 10 hits off Hendrix, who pitched for the Cubs. Toney is a new American Association last season, and Hendrix is a Pacific Coast League star. Toney pitched a no-hit game against the Cubs last year, and he has pitched a second no-hit game against them this season. Toney is a left-hander who is said to be a fine hitter.

* * *

BILL HOLT, Pennsylvania pitcher, has been released to the Philadelphia Nationals.

* * *

THE TIGERS have been rearranged in Cleveland for two days. But Manager Hughes has been released. Reason: Ty, his bad, calls his tonsilitis.

Stains Caused by Indelible Ink

STAINS on linen may withpatience be made so faint as to be scarcely perceptible. First of all, moisten the stain with iodine, then use hyposulphate of soda. Next rinse in clear water and dry well, and the stain, if a new one, will often entrely disappear.

THE WHITE MORNING

The Women Rise and Capture Important Points in Germany

By Gertrude Atherton

CHAPTER VI.—Continued

THE most exciting scenes and the only ones in which any of the women were killed were in the vicinity of the garrison. These interior garrisons of the country had been one of the long debated problems. As no women entered them and as it was not safe to attempt the corruption of any of the men, there were but two alternatives. Mow them up and sacrifice the men wholesale or meet them with a superior force as they rushed out to ascertain the nature of the explosions, and fight them in open battle.

Gisela had finally decided to give them a chance for their lives, as she had no mind to shed any more blood than was unavoidable, and these men, being no longer in their prime, must be overcome eventually, no matter what their fury.

The women night-workers in the factories, fifteen minutes before the signal from the Francehiks had pretended to strike, seized all the hand arms available and shot down the few who attempted to control them. The men in the secret had gone with them and were afraid about their numbers.

The officers in charge of the Class of 1920 were too few in number to make any resistance, too dazed to grasp a situation for which there was no precedent; they had surrendered to the Amazons, grimly awaiting their execution. The poor boys in the Kaiserknoxens had run home to their mothers, and finding them in the streets, had either taken refuge in the cellars or joined those formidable warriors in gray, promising obedience and yielding their arms.

Several of the women flew out into the country, built over where people were gathered about smoking ruins the land was at peace; there was no sign of a rally in the blue and white flag of Bavaria, no sign of an avenging army. In the course of the morning there were hundreds of these aviators darting about Bavaria, descending to tell the peasants or shopkeepers of the small towns that Germany was in revolution, the armies deprived of all support, and that the Republic had been proclaimed in Berlin.

The Social Democrats had possession of the Reichstagsgebaude, and every official head still adhered to its shoulders was as helpless as a fuming prisoner in its own house—as if those arrogant brains had turned to porridge. Every court and official residence throughout the empire was surrounded by an army of women with fixed bayonets, and before noon every submissive member of the old regime would be in either a fortress or the common prison.

This news Gisela heard at 10 o'clock, when she returned to the wireless station on the Mayerhaneum. The Berlin news came from Marietta.

In Munich the old king had been returned to the Red Palace when he had occupied during the long years of his father's regency, and it too was surrounded by an alert, but silent army.

The Silesian socialists had taken possession of the Residenz which to proclaim their victory and the new Republic, and by this time were crowding the Hofgarten and adjoining streets.

SAYS young Dan in the Springtime "I laugh at war, even, *even* though I weep, when you do not see, for the young hearts that lie still under the new grass in France—I laugh at war, I and the scarlet poppies. We two come in the Spring. We are patient and insolent of German guns, and beautiful; and the soldier has time to see our beauty on his way—*NELL BRINKLEY*

What Rheumatism Is

SOMETIMES DISEASED TONSILS ARE TO BLAME

By Brice Belden, M. D.

FOR a long time doctors believed that tonsilitis was frequently followed by rheumatism. The thing happened so often that the association was seen to be something more than accidental.

The significance of this fact was not fully realized until a physician named Berle, of Jena, showed the exact connection. He discovered that the same germs that are usually present in the tonsils, even when not actually inflamed, are the germs that are found in the joints and blood of persons suffering from rheumatism.

One germ in particular seems responsible for most rheumatic affections, and is also a resident in the tonsils under apparently normal and abnormal conditions. This organism bears the fascinating name of Micrococcus Rheumaticus.

This germ is one of the pus producing organisms belonging to a family known as streptococci. When, owing to a lessening of vitality due to exposure to cold or some other cause, this germ begins to multiply, we get a conflagration in the tonsil with absorption of poisonous products. These products cause certain systemic symptoms, such as fever, chills, sweats, drowsiness and anaemia. There may be delirium. Headache is more or less intense.

Now, if some of the germs manufactured rapidly in the tonsil under the foregoing circumstances gain access to the circulation, in addition to these poisonous products, and succeed in invading the joints, the result is what we call rheumatism. In short, rheumatism is a septic intoxication consequent upon tonsilar infection, with an inflammation of the joints that overshadows all the rest of the picture.

The rheumatism attack generally comes on one or two weeks after the tonsilitis, and the latter may have been entirely forgotten by the patient or not brought out in the doctor's questioning.

Cases of rheumatism not consequent upon tonsilitis are believed to be due to absorption of bile-producing bacteria from decaying teeth, or a discharging ear, or a diseased nasal sinus. Of course, there may be many sources besides those named.

Growing pains in the young and such rheumatic affections in older persons as neuritis, eczema, bronchitis, asthma and quinsy are due to tonsilar disease in most instances.

Youth favors the acute manifestation of rheumatism because of the very active glandular life during adolescence, with consequent promotion of the dissemination of septic material.

The many little open tubules in the tonsil known as follicles, or crypts are at times filled with germs in quiescent state. When anything happens to impair the power of the body's natural antitoxins to deal with these germs, the tubules become sometimes pockets become more culture ovens for the germs and trouble begins. The consciousness of the benefit of the glands to the neck makes invasion of the circulation easy.

Moral—The diseased tonsil is a menace to health and life, and should be extirpated completely (not partially).

Puss in Boots Jr.

By David Cory

WELL, after Puss Junior left the lovely princess who had changed from a little green snake into her natural form, as I told you in the last story, he marched along for many a mile until at last he came to a mill, where a big black crow sat preening his wing, but oh, dear me, when he tried to sing, you never heard such a dreadful sound; why, it went just like a knife when it's ground.

Dear me! there I go, making an poetry without putting it into verse. But, never mind, next time I won't forget.

"Hello there, little Puss Junior," said the big black crow, and of course he stopped singing when he spoke to Puss, which was a great relief to a little canary bird on a tree nearby, who sang so sweetly that Mrs. Caruso wanted to buy him and put him in a cage. And then that big black crow said, "Caw, caw!" and flapped his wings, and all of a sudden he dropped a pretty little gold book.

So Puss picked it up and was just going to hand it back to the old black bird, when he flew away and never came back. So Puss sat down on a stone and opened the little gold book, and the first thing he saw was a picture of a Fairy Queen. Then he turned over to the next page, and right there was the portrait of the King of the Gnomes.

And after Puss had looked at it for a few minutes he turned over to the third page and there was the picture of a great big tremendous giant. Well, Puss didn't like that very well, so he turned to page 4, where, would you believe it, he saw his old friend the Good Gray Horse. And after that he saw the picture of all his old friends—Tom Thumb, Little Red Riding Hood, Old Mother Goose, and, I'll tell you the rest, only I haven't the room.

"Well, that's the nicest book I ever saw," said little Puss Junior, and he looked up at the little canary, who was still sitting on the tree close by. And after that she came and perched herself on his shoulder and looked at the pictures with him and while they sat there who should come along but a soldier with a great sack on his back. And when he saw Puss he stopped and said, "I have a beautiful silk scarf which I will sell you for a song."

"I can't sing well enough for that," said little Puss Junior. "I can," said the little canary, and she began:

"Tra la, la, la, tra la, la, la,
I've a yellow wing,
And all through the day
I chirp and sing.
But I never sang for a silken scarf,
So, Mr. Peddler, don't you laugh."

And after that the peddler handed the silken scarf to the little canary. "It is a magic scarf," he said, "and if you tie it a certain way it will carry you through the air like a pair of wings." "But I don't need wings," said the little canary; "I already have a pair," so she handed the scarf over to Puss Junior, and in the next story I'll tell you what happens after this, for he tied the scarf into a beautiful bow knot—but there, that's the secret of that beautiful scarf.

Little Bobbie's Pa

By William F. Kirk

MA'S Pa was looking at a seed book last nite, thay are going to have a big garding this year somware in the country.

"Say, sed Pa, I'll promise not to shirk, sed Pa. I was never afrade to work. I will show you before long that I am a regular gardner. Watch me wen the dirt begins for to fly, sed Pa. Watch my smoak then.

I hoap so, sed Ma. I look for you to do grate things to help me & I dare say I shant be dis-appointed sed Ma. You will be proud to know that you have helped yure nashun wen the Fall came, sed Ma, & you will be glad to see yure cellar full of potatoes, etc., sed Ma.

Yes, sed Pa, our own luv one's country mear wen one has a cellar full of spuds on wich to live on, sed Pa, spuds that will keep the life of life brite & burning, sed Pa. A gent that can make two potatoes grow ware only one grew before, sed Pa, is a honor to the land of his birth, sed Pa.

I want to help, I sed.

I hoap you will want to help wen the weeds beegin to grow, Bobbie, sed Pa. That will be the time for you to do yure duty, wen the brite sun & the gentel rain has brot out the gentel pigweed & the dashing dog-fennel, sed Pa. Dog-fennel is sum weed, sed Pa, it will grow like mad if you doant yank it out of the soil of our nativ land, sed Pa. Down with the dog-fiznel & up with the spud, sed Pa, that must be our battel cry.

& then Pa beegan for to look sum mear at his seed book.

I will see to it that you use the strength you already have.

All rite, sed Pa, I will promise not to shirk, sed Pa. I was never afrade to work. I will show you before long that I am a regular gardner. Watch me wen the dirt beegins for to fly, sed Pa. Watch my smoak then.

I hoap so, sed Ma. I look for you to do grate things to help me & I dare say I shant be dis-appointed sed Ma. You will be proud to know that you have helped yure nashun wen the Fall came, sed Ma, & you will be glad to see yure cellar full of potatoes, etc., sed Ma.

Yes, sed Pa, our own luv one's country mear wen one has a cellar full of spuds on wich to live on, sed Pa, spuds that will keep the fire of life brite & burning, sed Pa. A gent that can make two potatoes grow ware only one grew before, sed Pa, is a honor to the land of his birth, sed Pa.

I want to help, I sed.

I hoap you will want to help wen the weeds beegin to grow, Bobbie, sed Pa. That will be the time for you to do yure duty, wen the brite sun & the gentel rain has brot out the gentel pigweed & the dashing dog-fennel, sed Pa. Dog-fennel is sum weed, sed Pa, it will grow like mad if you doant yank it out of the soil of our nativ land, sed Pa. Down with the dog-fiznel & up with the spud, sed Pa, that must be our battel cry.

& then Pa beegan for to look sum mear at his seed book.

Advice to the Lovelorn

By Beatrice Fairfax

Not Much Chance

DEAR MISS FAIRFAX:

I am twenty-two. About a year ago I met a young lady two years my junior, and although I admired her immensely I did not fall in love with her. Our acquaintance was not very old when she confessed that she was desperately in love with me and has been that way for years, long before she had been introduced to me, for she had known me by sight for many years. I have tried to talk reason and explain, but of no avail. I have tried for a year to learn to love her. Now her parents are beginning to wonder about the results of such pressure, and ofttimes have hinted at what my intentions are. Can I tell them the truth? Or ought a man marry out of sympathy? I could do almost anything to prevent the pain and heartache which will be sure to follow our parting. If I marry her, and by some trick of fate I should fall in love with someone else, what then? Can you help me? B. M.

THIS girl has not much chance of happiness as the wife of a man who does not care for her. Of course if you did marry her she would have the immediate satisfaction of getting what she wants. Possibly you do not know what love is. If you are looking for a romantic affair of the calibre and fever sort and want to dream of a girl by night and tremble at the thought of her by day, perhaps this attitude of yours is disguising from your own heart its real feelings for the girl you want to be so careful to guard from unhappiness. If you really think that marriage to her is all wrong for you, it will be equally all wrong for her, in that case you had better have a plain talk with her parents.

The Old Prejudices

DEAR MISS FAIRFAX:

I am twenty; employed as a stenographer. For some time I have been going out with a young man who holds a reliable position with the same firm.

He lives with an old mother, being the main support of that household. He has a well-balanced character and compassion for weaknesses in his fellows is very strong. Taking all in all, I would class him as "A perfect man." I have acquired a great deal of knowledge through our little discussions such as topics of the day and occasional business matters. He has helped me above all to be broad-minded.

To make a long story short, he is a Protestant while I am an American of Hebrew descent. My parents object to my going out with him, and have told him so.

PEGGY H.

IF this man is the fine, splendid, loyal and generous individual your letter describes, and you have the gift of appreciating all he is and stands for, I think it is a real tragedy that the old prejudices should separate you. Once upon a time we all laid too much stress on the fact that Jewish religion marked an actual racial distinction, and that Jew and Gentile were separated not merely by creed, but by differences in environment, training, ideals and by all the contrasting conditions of their family lives. Recently on the stage of one theatre the war drive of the Knights of Columbus was held. And on the stage sat together in friendly unity an Episcopalian minister, a Jewish rabbi and a Cardinal. Your parents have not quite caught up yet with the broader and more generous views, which are actually part of our life today.

MARRIED LIFE

Helen Lays a Deep Plan That Fails to Work Out

Copyright, 1918, International News Service.

"WARREN, we'll have time to stop for those shirts and socks of yours," Helen said over the telephone.

"All right, I'll meet you at 4:30 sharp in the little side room of the Alpine. Be on time now, because we want to get up to dinner early."

"I'll be there," returned Helen, and hung up the receiver with a thrub of happiness. Everything was beautiful when Warren was in good humor, even the simplest pleasures assumed large proportions, and the fact that she was going shopping with him was quite an event to look forward to. When Warren shopped for her Helen was considerate and uncomfortable, afraid of provoking him and hardly daring to call her soul her own, but when he shopped for himself, the responsibility was not on her shoulders. She kept discreetly out of the transactions unless he asked her advice, and therefore almost always kept out of hot water.

She was early at the meeting place, but Warren was right on time, and they proceeded over to where Warren liked to shop.

Helen led the way to the shirt counter, which was crowded with zealous shoppers, evidently more keen on the bargains than was Warren. A bored looking man finally happened to glance their way, and while he was getting out different shirts for Warren, some one suddenly grabbed Helen with a little laugh.

"Well, of all things look Warren," said Helen, turning to speak to Louise and Bob. "Are you people shopping for Bob?" Helen did not ask this question because she wanted to know. The truth of the mater was that she and Louise had planned to meet in just this way, and Helen's question was simply diplomacy of the feminine order.

Helen needed a new fur scarf for Summer wear, and Warren thought Summer furs ridiculous, but Helen had figured that if it were possible to inveigle Warren into the fur department, where he might see for himself the reduced prices, who knew what kind of luck she might have.

"Aren't you nearly finished, Warren?" asked Louise with a sly glance at Helen. "We'll wait for you, and then you can help me select a suit."

Warren waved them away. "See here, I don't come shopping very often, and we haven't the time to go gallivanting around with you today, Louise; this is my shopping excursion."

Warren looked from one to the other suspiciously. "See here," he exploded, "Have you two anything cooked up between you? Bob, are you in this?"

"Not on your life!"

"Well, take your wife away then, she's bothering me."

"Say," said Warren suspiciously, "I do believe I was right about you and Louise after all. Let me tell you something right now, you'd get a lot more out of a man if you were straightforward about it; silly schemes never get a woman anywhere."

"Who, Warren!"

"Wel, I mean it, but I wouldn't do any more shopping anyway today, Helen, so you can go home

CARBURETOR IN TUNE AFTER LONG RUN

Adjustment, if Needed, Should Be Made When the Engine Has Become Hot

By C. F. DONNOCKER.

The novice at the wheel of the automobile is by no means a rare sight, even in these days of enormous automobile production, and the experiences of the beginner, especially when troubles develop, are always interesting and generally educational.

The only way to know your machine is to get right into the inside and learn about it and the motorist generally puts off doing this until trouble occurs and then begins a diagnosis which sometimes is not very beneficial to the car.

Carburetor troubles are not so common as heretofore, due to the progress made in design and also various devices for keeping the mixture at an even temperature after the engine gets warm.

A reader of the Boston AMERICAN recently wrote that he generally "tuned up" his car before leaving the garage, and made any carburetor adjustment, if necessary. He found that the car acted badly after getting out on the road and asked the reason.

If he had waited until the engine was "warmed up" before making the adjustment he probably would not have had any trouble. To be efficient a motor must be warm, and if the mixture is set when the motor is cold it is generally too rich, then when the engine begins to get hot loss of power occurs.

* * *

Recently the newspapers carried a short news dispatch from Geneva, Switzerland, announcing the death of Emile Jellinek Mercedes, a wealthy automobile manufacturer. Few persons, however, recognized in this name the man who developed the Mercedes car and made the name synonymous with speed and endurance on the race tracks of many countries. Jellinek perfected this car while in control of the Daimler Motor Company, and named it the Mercedes in honor of his daughter. The world-wide success of this car caused him to have the name Mercedes added to his own. Ralph De Palma used a Mercedes racing car several seasons, which, equipped with Goodyear tires, won many races.

NEW NAMES POUR IN FOR CAMP DEVENS MEN

"True Heart Boys."

How is that for a name for the Seventy-sixth Division now in training at Camp Devens?

The Devens boys are true-hearted beyond all question, true to their country and their colors.

This suggestion, in the effort to find a popular name for this New England contingent of our National Army, is offered by a Brookline boy, Gibson McCabe of No. 1411 Beacon street.

Other new suggestions include:

MINUTE MEN—Mrs. E. P. Smith, North Truro.

REAL WAR BOYS (SAME INITIALS AS RED, WHITE AND BLUE)—George Dowling, No. 24 Mill street, South Groveland.

EVER FAITHFUL—Miss Laura Provost, No. 23 Mechanic street, Lebanon, N. H.

BETSY ROSS DIVISION—Miss Margaret P. O'Clare, North Grosvenordale, Ct.

SPIRIT OF MASSA-WASHINGTON—Leslie Moore, 12 years old, No. 574 Chicopee road, Springfield.

AURORA DIVISION (OUR NORTHERN LIGHTS)—Pauline C. Mather, No. 95 Cliff street, Norwich, Ct.

SPIRIT OF '76—Mrs. George Chanvin, No. 22 Park street, Ayer.

NEW ENGLAND'S OWN—Katharine Coffey, No. 34 Cherry street, Fitchburg.

AMERICAN "PEP"—Jennie McEnney, Cochituate.

LIBERTY BOYS OF '18—Mrs. Annie Fratus, No. 32 Winsor street, Fairhaven.

FREEDOM FIGHTERS—Louis W. Krasner, No. 34 Anderson street, Boston.

LOCAL 76—Aaron Kagan, No. 95 Devon street, Roxbury.

SONG RECITAL GIVEN BY MINERVA KOMARSKI

A song recital was given in Jordan Hall last evening by Minerva Komarski, contralto. The program comprising a Gluck aria, three Grieg songs, three so-called Indian songs and songs by Russian-American and Norse composers, with a final aria from Meyerbeer's "Prophet."

Would that some young singers could have heard Annie Louise Carey describe the sorrows of Eurydice. An excellent setting of the "Wanderer's Night Song" and the brilliant "White Throat" by Aspinwall, a first cousin to Donna's "May Morning," were well received, songs of this description receiving a better interpretation than the many tragic and dramatic events that made up the larger part of the program.

The young lady displayed a voice of even range and goodly volume, brilliant at times but always with a certain hardness of tone that gave a feeling of monotony to every selection.

The ability to express by a great variety of tonal colors all the lights and shadows of vocal interpretation is gained only through a large experience in every field of vocal endeavor.

A large and friendly audience was present, and floral tributes and much applause was in evidence.

WORCESTER BOY KILLED BY A BAYONET THRUST

Worcester, April 18.—John P. Caron, father of Corporal Henry E. Caron, twenty-one, of Company M, 104th Infantry, has been notified that his son has been killed in battle in France. According to information received it is assumed that young Caron met his death from the lunge of an enemy bayonet in a hand to hand conflict. He enlisted in Company M when the National Guard was called out for border duty in 1916. When he returned he married a North Adams girl, who survives him.

BARON BEAN

GO MY PALOMA; GO MY PIGEON, GO TO MY UNSEEN LOVE, AND BEAR MY MESSAGE TO HER, I DESIRE TO KNOW WHY SHE IS MAD AT ME.
DEAR ME, A CARRIER PIGEON AND WITH A NOTE — A SAD LOVE LETTER TOO — "LONELY HEART" IS ASKING WHY "LOVELY HEART" IS MAD — I'LL ANSWER IT AND STRAIGHTEN OUT WHAT SEEMS TO BE A TANGLED LOVE AFFAIR.
AH-H-H, SHE STILL LOVES ME — ALL'S WELL — HOO-ROOR !!!
PLAY THE PIANOS, READ HIM THE HAPPY POOL — HOW DARE HE BE SO MERRY WHILE I AM PLUNGED IN GRIEF — STILL WHAT DOES HE KNOW OF LOVE, POOR WORM. I SHOULD JUST VENT ANGER AT HIM — IT'S A WASTE.

Former United States Senator Mason, Pioneer in Pure Food and Drugs Legislation, Father of Rural Free Delivery System Says Nuxated Iron

Increased His Power and Endurance so Much, That He Feels It Ought to Be Made Known to Every Nervous, Run-down, Anaemic, Man, Woman, and Child.

Opinions of Dr. Ferdinand King, New York Physician and Medical Author; Dr. James Francis Sullivan, formerly physician of Bellevue Hospital (Outdoor Dept.), New York and the Westchester County Hospital; Former Health Commissioner Wm. R. Kerr, of the City of Chicago, and others.

Senator Mason's statement in regard to Nuxated Iron was shown to several physicians who were requested to give their opinions. Dr. Ferdinand King, a New York Physician and Medical Author, said, "I heartily indorse Senator Mason's statement in regard to Nuxated Iron. There can be no question about what Nuxated Iron does in relieving iron deficiency. The skin of anaemic men and women is pale; the flesh flabby; the muscles lack tone; the brain fags and the memory fails, and often they become weak, nervous, despondent and melancholy."

Dr. James Francis Sullivan, formerly Physician of the Bellevue Hospital Outdoor Dept., New York, and the Westchester County Hospital, said, "Senator Mason is to be commended on handing out this statement for the benefit of the public to print. There are thousands of men and women who need a strength and blood builder but do not know what to take. In my own opinion there is nothing better than organic iron—Nuxated Iron—for enriching the blood and helping to create the strength and endurance in men and women who have up-to-date to bear up against the strenuous strain of the great business competition of the day."

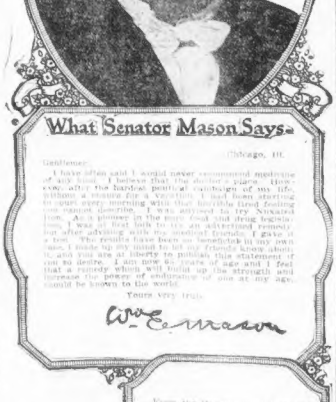
Former Health Commissioner Wm. R. Kerr, of the City of Chicago, says: "I have taken Nuxated Iron myself and experienced its health-giving and strength-building effect, and in the interest of the public welfare I feel it my duty to make public the results of its use. I am well past my three score years, and ready to say that I believe my own great physical activity is largely due today to my personal use of Nuxated Iron. From my own experience as well as from what Iron I feel it is such a valuable remedy that every man need to be without a hospital and prescribed by every physician in this country."

While Former Health Commissioner Kerr is not himself a physician, still his experience in handling public health problems must give his opinion more than ordinary weight.

Dr. Schuyler Jacques, Visiting Surgeon of St. Elizabeth's Hospital, New York City, said, "I have never before given out any medical information or advice for publication, as I ordinarily do not believe in it. But in the case of Nuxated Iron I feel it would be remiss in my duty not to mention it. I have taken it myself and given it to my patients with most surprising results. And those who wish quickly to increase their strength, power and endurance will find it a most remarkable and wonderful tonic."

Iron is absolutely necessary to enable your blood to change your food into muscle; otherwise the food you eat does you no more good than if you put it in the stove to burn. You must have iron or you must die. Without iron you can't get well. You don't get strong. You don't stay well. Iron is a prerequisite; you become weak, sickly, pale, anaemic, nervous, run-down people unless you take iron in some form. Dr. Washington Adams, one of the best known physicians in Brooklyn, N. Y., for many years, said: "Iron is the greatest remedy we have for toning up the blood and helping to create the strength and endurance of men and women. Nuxated Iron is the best form of iron I have ever used in my practice."

Manufacturers' Note—Nuxated Iron, which has been used by physicians in their own families and in their private practice for years, is not a secret remedy, but one which is now prescribed more generally by physicians than any other iron tonic. Unlike the other inorganic iron products, it is easily assimilated and does not injure the teeth, make them black nor upset the stomach. On the contrary, it is a most beneficial and effective tonic, as well as a most wonderful and quick strength builder, and is sold by druggists under a guarantee of satisfactory results or your money back. It is dispensed in all druggists.



FINDS FARMERS NEGLECT GOOD CHANCES

New England Should Be Self-Supporting, Says Alexandra Carlisle, Actress

By FRED J. McISAAC.

"If food will win the war, there are a great many slackers operating farms in New England," declares Alexandra Carlisle, star of "A Country Cousin," at the Hollis, and herself a practical farmer, operating a model farm of eighty acres in Lexington.

It is a curious coincidence that in "A Country Cousin" Miss Carlisle plays a talented and cultured girl who is also operating a farm, and whose keen business sense enables her to save her cousin, a young actress, from the clutches of a crowd of city sharpers.

Miss Carlisle makes a hard indictment of New England farm methods, which she holds are wasteful and unpatriotic.

"Boston should not have to import a scrap of food from outside New England," she declared, with no more territory than is covered by New England, supplies at present three-quarters of its food and 6,000,000 people. New England has 6,000,000, and while some of it is not as fertile as that of England there is ample good ground to feed everybody who lives here.

LACKING IN FORESIGHT.

The reason why Boston has to import food from the West is lack of energy and good sense by the farmers. They have killed from half to three-quarters of their chickens because grain was high this Winter.

They didn't realize that if grain was high the price they would get for their eggs and chickens would be proportionately high. The wholesale slaughter of poultry will do New England untold damage.

They kill their calves, selling newborn calves to the butcher to be sold as veal for five or six dollars each. This is both shortsighted and almost criminal. A calf requires comparatively little until it is a year and a half old and it is then almost big enough to breed.

PLENTY ROOM FOR STOCK.

With plenty of land which would be good for pasture, if nothing else, they do not raise cattle. I have seen many so-called farmers who did not keep but one cow.

I have seen farmers who purchased their butter from others.

Pigs do not require fertile soil and they are very profitable, but few New England farmers raise pigs in any quantity. Sheep could graze on New England hills in vast numbers, but the herds are small and scant.

I have been surprised at the farmers even buying canned vegetables and other supplies that ought to be raised on their own soil.

I know the argument advanced by some farmers that there is no profit in specializing in one line than in developing all phases of farm products, but it stands to reason that if you own the land you can raise things on them very much cheaper than you can buy them.

COMES FROM ENGLAND.

I was born and brought up on a farm in Yorkshire, England, and had always looked forward to the time when I could retire to my own farm. Perhaps I may be prejudiced by the memories of my English farm, and it may be that conditions over here are responsible for the difference in methods, but I have seen very little of what is called intensive farming in New England.

It is curious because I came here with a favorable idea of the thrift, keenness and enterprise of New England farmers, and I have been continually surprised at evidences that this reputation is not backed up by facts.

Miss Carlisle spends most of her daylight hours superintending her farm, which is a short motor run from the theatre. She grows all kinds of farm products, and this year has a very successful line of capons and pork.

LUNCHEON FOR 301ST BEFORE BIG PARADE

Members of the 301st Regiment from Camp Devens, "Boston's Own," and local reservemen from Hingham and Hunkin Island will be given luncheon in Mechanics Building tomorrow noon by the Retail Trade Board. Preparations will be made in time to give the men an opportunity to rest before they form for the parade, at 2 o'clock. F. Alexander Chandler and Charles F. Hacon are in charge of the arrangements for the affair.

EX-GOVERNOR BRACKETT LEFT ESTATE OF $11,500

The will of former Governor John Q. A. Brackett of Arlington, who died April 6, 1918, has been filed in the Probate Court at East Cambridge. It is dated March 4, 1881, and names his wife, Mrs. Angelina F. Brackett, executrix. The estate is valued at $11,500, $5,500 in real estate and $6,000 in personal property. All of the bequests are private.

LIEUT. JONES SPEAKS AT PAINE'S LOAN RALLY

Lieutenant O. B. Jones of the "Black Watch" Regiment, and Mr. and Mrs. Sidney Drew will speak at a public rally for the Liberty Loan at Paine Furniture Company building, President William L. Shearer will preside. The public is invited.

Coast Artillery Wants Men

Applicants are wanted for the Coast Artillery Corps, Fortress Monroe. They will be accepted up to thirty-five and may be in the draft age with certain provisions. Applications should be made to Captain Wallace H. Rich, No. 25 Huntington avenue, Boston, or to the temporary mustery gunner, sergeant-major, electrical and radio sergeants.

American Zinc, Lead and Smelting Co.

The Directors of the American Zinc, Lead & Smelting Company have declared a regular quarterly dividend of one dollar and fifty cents ($1.50) per share on the preferred capital stock, payable May 1, 1918, to stockholders of record April 25, 1918.

S. E. FARWELL, Treasurer.

ENGLISH actress and farmer, Alexandra Carlisle, in "A Country Cousin," who says New England farmers are neglecting opportunity.

NATIONAL ARMY CAMPS LEAD IN DEATH RATE

Pneumania Takes Highest Toll, but General Health of Soldiers Is Excellent

By International News Service.

Washington, April 18. — Of 285 deaths among the troops in training for the week ending April 12, 171 were from pneumonia, according to the report of the surgeon-general of the army, made public today.

Camp Dodge at Des Moines, Ia., had the largest death toll, with 34. Thirty-two were caused by pneumonia. This week's total for all camps is five less than for the preceding week. There was one homicide and one death from delirium tremens.

Deaths in the National Army showed considerable increase, with 285 against 129 for the preceding week.

"The health of the troops continues very good," the report says. "The admission and death rates are lower than for the preceding week. The highest sick and death rates are reported from National Army cantonments. The lowest rates are in National Guard camps.

"Pneumonia continues to prevail in all of the larger northern camps. An increase in the new cases is noted compared with the previous week. Little change is noted in the prevalence of other diseases.

PLAN TO RAISE U. S. ARMY TO 5,000,000

By H. H. STANSBURY.

Staff Correspondent of the International News Service.

Washington, April 18.—Secretary of War Newton D. Baker, just back from France, has made known to President Wilson the urgent need for a greater American army and a maximum of speed in preparations to meet the growing emergency on the western front. The details were communicated to the chief executive and the heads of the war bureaus.

Under the direction of Major-General Peyton C. March, acting chief of staff, and Provost Marshal Major-General Enoch H. Crowder, the plans for expansion which must be submitted to Congress already are taking shape.

It is estimated the size of the military establishment must be immediately increased to 5,000,000 men. As soon as the machinery for organization can be enlarged the total will be pushed up to 4,000,000. The advisability of requesting Congress to authorize and appropriate now for the larger figure is under consideration.

The House military affairs committee, anticipating the increased demand for men, yesterday favorably reported the bill which would include in the draft all men who have become of age since April 5, 1917. President Wilson is authorized by this measure, which already has passed the Senate, to call men who become 21 years old at any time during the war without further legislation.

The enactment of the bill is expected within the next few days. The committee also estimated it will make available approximately 1,000,000 men a year, the majority of whom will be in Class 1.

"There must be no limit in our effort to get the greatest possible number of men to Europe in the least possible time," is the substance of Secretary Baker's message as understood by his associates in the administration.

The officials who were asked to the White House by President Wilson to hear the Secretary of War recount his experiences include Bernard M. Baruch, head of War Industries Board; Chairman Hurley of the Shipping Board; Secretary Daniels of the Navy Department; Herbert C. Hoover, Food Administrator; Dr. Harry A. Garfield, Fuel Administrator; John Skelton Williams, representing William G. McAdoo, director-general of railroads.

Official comment was not obtainable at the conclusion of the conference, but it was said that the message as understood by his associates in the administration.

The officials who were asked to the White House by President Wilson to hear the Secretary of War recount his experiences include Bernard M. WEST SPRINGFIELD ST., 307

Wise Selection of Mr. Schwab as Shipbuilding Head

He Has Already Distinguished Himself in Nearly All Branches of This Great Work

The selection by Chairman Hurley, Mr. Bainbridge Colby and Mr. Piez of the Emergency Fleet Corporation Board, with the advice of President Wilson, of Charles M. Schwab to be director-general of the building of ships in this grave war emergency ought to please the country. Mr. Schwab has already distinguished himself in nearly all the branches of this great work. He is one of the country's most energetic and able men.

The statement of Secretary Tumulty that he has been DRAFTED into the nation's service is probably not quite true. It is more than likely that Mr. Schwab's hesitancy at undertaking the duty was wholly a matter of diffidence and modesty.

But the policy of drafting men beyond the draft age and of the capitalistic class who have the special aptitude and experience needed by the government in any particular service is a sound policy, and ought to be followed in all directions. If we can and ought to draft the younger men into the military service, tearing them from their homes and friends and business, interrupting them in their progress in civil life and subjecting them to the greatest physical dangers and discomforts, we certainly can and ought to draft men beyond the military age to perform the services needed at home in safety and comfort, but on the same basis regarding financial reward that obtains in the more dangerous and arduous service that is demanded of the younger men.

If we really have a labor problem in this country, and if there ARE any considerable number of workingmen who have been slacking on their work—as it is alleged from mouth to mouth among certain classes, the way to deal with this difficulty is to show the workingmen that no distinction is being made between them and the other classes which have a duty to render equal service.

Mr. Schwab's general point of view on the tendency of the world in this fearfully important period is very interesting and very prophetic. When the Bolsheviki revolution occurred in Russia, Mr. Schwab was one of the few men in the country who really understood its significance, and appreciated the forces behind it and the capacity and idealism and disinterestedness of its leaders. In addressing a public school alumni association Mr. Schwab said:

We are at the threshold of a new era, and the man who labors with his hands, who does not possess property, is the one who is going to dominate the affairs of this world.

Mr. Schwab did not perhaps mean it exactly as he said it, but he put it strongly so that it would be understood by the very small class which has controlled the wealth of the world that their domination of the world affairs is over, and that it will be ended by the rise to their due influence in the world of men who work with their hands, the ultimate producers.

If this is Mr. Schwab's view of the future, workingmen of the country will welcome his assumption of the great task which has been placed in his hands. There is no reason to doubt Mr. Schwab's sincerity. He was himself a common workman and he delivered these sentiments at a time when the men of the class into which he has struggled were most bitter at the Bolsheviki revolution, and at the rising tide of democracy throughout the world.

Mr. Creel Blamed Unjustly for Suppressing News

George Creel, the head of our Official Information Bureau at Washington, is the storm centre of criticism by a certain class of our citizens who are mistaking effects for causes. They are blaming Mr. Creel for the suppression of news. But the fact is that Mr. Creel does not SUPPRESS news. He PUBLISHES the news.

Mr. Creel did not originate the policy of tampering with the public information. That was a policy established by Congress itself. Mr. Creel is only carrying out an act of Congress—a policy deliberately established by the supreme law of the land. So far as Mr. Creel has had any discretion he has ameliorated the rigors of that policy. Whenever Mr. Creel was able consistently with his duty under that policy to decide whether to suppress an item of information or not to suppress it, he has always, so far as we know, decided not to suppress it.

The men who are loudest in their criticism of Mr. Creel these days are the gentlemen most responsible for the establishment of the policy which it is Mr. Creel's ministerial duty to execute. The policy, of course, is wrong. If there is anything in the world that a democracy needs it is the truth about everything.

News, all the news, and nothing but the news is the very breath of a free government. It is as harmful to the body politic of a democracy to attempt to limit the news, except to freshen it, as it is to our physical body to limit the air we breathe, or to change it except to freshen it. The rule concerning the giving of information to the people is like the rule concerning giving people air—the more and the purer we have the better. If we hide an unpleasant truth in dark places we shall turn it into a contagious infection, just as we make a sore spot contagious if we deny it the disinfecting sun and air.

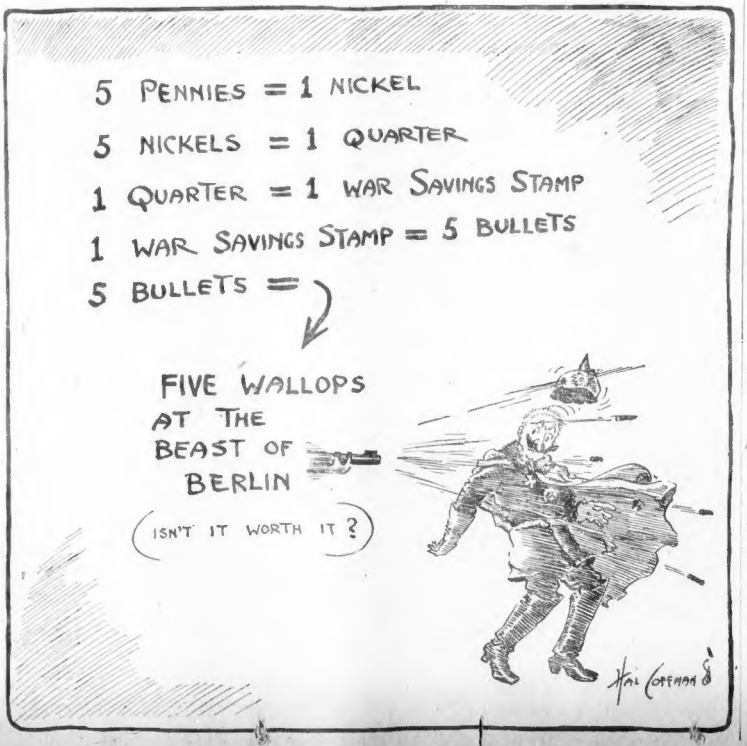
The AMERICAN does not share with Mr. Creel's critics their excitement over his remarks on preparedness. These same gentlemen either agreed with Mr. Creel or were absolutely indifferent to the question of preparedness during the fifteen long years in which the Hearst newspapers advocated preparedness, and warned the nation against its danger from unpreparedness. Mr. Creel and a great many other pacifists believed that the state of unpreparedness was a condition of safety, because in their opinion it tended to prevent aggression against us and tended to prevent us from being aggressors. Of course, this was all very foolish, as the Hearst newspapers, and Mr. Hearst himself, in signed statements, over and over again pointed out during the last fifteen years. It foolishly took no account of human nature, which changes very little down through the ages. It took no account of the truism which George Washington uttered in his address to Congress in 1790, in which he warned us that "To be prepared for war is one of the most effectual means of preserving peace."

It is impossible to imagine that Mr. Creel does not believe in future preparedness, since he and his fellow-pacifists have had a tragic demonstration of the folly of their theory. But Mr. Creel's error of judgment was an error into which legions of his fellow-countrymen fell, including his most strenuous critics. These gentlemen may not have been active pacifists, but they were just as bad because they were absolutely indifferent to the country's danger—many of them worse, for their indifference was selfish, while Mr. Creel and his active associated pacifists were patriotic, according to their lights.

Let it be remembered that Mr. Creel has mitigated so far as possible the atrocities of the policy which it is his duty to carry out.

The Eternal Feminine

A Little Study in Arithmetic



5 PENNIES = 1 NICKEL
5 NICKELS = 1 QUARTER
1 QUARTER = 1 WAR SAVINGS STAMP
1 WAR SAVINGS STAMP = 5 BULLETS
5 BULLETS =
FIVE WALLOPS AT THE BEAST OF BERLIN
(ISN'T IT WORTH IT?)

CHILDREN TO BENEFIT BY WOMAN SUFFRAGE

By Mrs. John C. Lee

Chairman of the Norfolk Senatorial District, Massachusetts Woman Suffrage Association

My interest in suffrage is very largely due to the benefits which I believe the children of the United States are going to derive from it. When you come to think of it, aren't they, after all, the most important thing in the whole world? We are beginning to realise that our whole hope of reducing crime, poverty and disease lies in giving the rising generation the best education in order that they may be fitted to combat these evils. But education won't help without a firm basis of health to work on, and what we have accomplished thus far in this regard is a mere drop in the bucket compared to what we could do.

I have a vision of the Children's Bureau, the largest and most important department in Washington, and financed accordingly (not about one-third that of hogs as was the case in 1915). It will have branches everywhere.

In Every Village

There will be supervised playgrounds and milk stations in every village. Good Lying-in-Hospitals will be built in every large town and be connected with Day and Night Nurseries, where, when-every necessary, the younger children may be safely cared for during their mothers' stay at the hospital. Every mother will have the most expert medical care and every baby a good start in life. The saving of these lives will be of value to the State, but what appeals to me still more is the saving of grief and heart-ache which must now come to thousands of mothers every year. It seems not only sad, it seems positively wicked to me that any mother in this wide country should lose her baby from a preventable cause. Women alone feel this keenly, and when woman suffrage is established, child welfare will come into its own at last and will be treated as the most vital of the nation's problems.

Much Enthusiasm

Now, as to the Federal amendment: the most important argument for it at present is the economy of time and effort it will bring about and the amount of money, labor and enthusiasm which will be released and turned into more productive channels.

When, before the war, we were free to give our time and money where we wished, we did not so much begrudge the sacrifice and labor (so much of it unnecessary) of State campaigns. But it is vastly different now. The world is calling for workers and we suffragists are eager to answer the call in the most efficient way we can. This is not the time for any waste of effort.

The Federal Amendment will give us the vote in the quickest and simplest way possible. It will give us the most efficient tool for our work at the time we most need it. It will enable suffragists everywhere to work wholeheartedly and with a deeper enthusiasm for what is going to be women's chief part in this war; namely, the conservation of the food supply and the conservation and protection of human life.

Prayer of a Soldier in France

By Joyce Kilmer

Private 165th Infantry, American Expeditionary Forces.

My shoulders ache beneath my pack.
(Lie easier, Cross, upon His back.)
I march with feet that burn and smart,
(Tread, Holy Feet, upon my heart.)
Men shout at me who may not speak,
(They scourged Thy Back and smote Thy cheek.)
I may not lift a hand to clear
My eyes of salty drops that sear,
(Then shall my fickle soul forget
Thy agony of Bloody Sweat?)
My rifle hand is stiff and numb,
(From Thy pierced palm red rivers come.)
Lord, Thou didst suffer more for me
Than all the hosts of land an sea,
So let me render back again
This millionth of Thy gift. Amen.

—*From Good Housekeeping.*

UNLEAVABLE TREASURE OF YOUTH TODAY

By Winifred Black

"I DON'T mind going into a new school," said Fluffy Ruffles, "but, oh, I'm scared to death every time I think of algebra!

"They say algebra is harder than fractions and worse than decimals, and meaner to learn than the dynasties of Spain and England and France and Germany put together!"

"Algebra!" scoffed Plain Braids, tilting her saucy little nose heavenward. "I don't care anything about that—but, oh, when you get to astronomy, they say that's perfectly unbearable!"

I went into the sitting room and sat down by the fire, and I had a plate of fudge with me, and as we ate the fudge we talked—Fluffy Ruffles, Plain Braids and I. I told them that I was a traveler returned from the weird country of Algebra and the strange and awesome kingdom of Astronomy, and I had lived to tell the tale. Why shouldn't they? And they laughed and looked comforted—a little.

I wish I could comfort them as easily or comfort myself as easily about the rest of the things which Plain Braids and Fluffy Ruffles will have to learn in the school of life.

Such a Pity!

Now, there's Fluffy Ruffles. She's the best-hearted little thing in the world, generous and forgiving and so unsuspicious. How am I ever going to tell her not to trust people too far?

I hate to take that look of faith out of her blue eyes. I feel like a criminal even to think of making her understand how careful she will have to be about every word she says and almost every thought she thinks when she is among strangers. If I should try to do it, she would just laugh and think me old-fashioned and too particular.

Plain Braids—she's proud and broad-minded. She doesn't see the difference between the ashman and the millionaire, and she can't see why she should be any more polite to the Governor of the State than she is to the janitor of the apartment house, and the worst of it is I can't give her any good reasons, either, yet, after all——

I have a friend who smokes. She's a sweet woman, brilliant, highly educated and most attractive.

She is a foreigner, and in her country all the women of her class smoke as a matter of course. She's coming to visit me.

Now, if it weren't for Fluffy Ruffles I shouldn't care particularly whether my friend smoked or not. She is free, white and a good deal more than twenty-one. But how about Fluffy Ruffles? What if Fluffy Ruffles struck a match and started to smoke? How am I going to explain to her?

How to Explain

Mrs. Lightminded likes to come and have a cup of tea at my house and talk over the new plays and the latest books.

She's as good as gold, as honest as the day, and I'd stake my life on her chararter, yet some of the things she says are a little—ah—er—ah—How in the world am I going to explain her to Plain Braids?

Have they the right of it, these children who think that white is white and black is black, and that there is no such thing as gray at all?

I scolded Plain Braids the other day for starting to tell a wee little fib, and yet she heard me, over a telephone, saying that I would love to go to the party, but really couldn't manage it, and she knew that the only reason I didn't manage it was because I simply hated the very thought of even being asked.

I wonder what Plain Braids and Fluffy Ruffles really think of me and of my friends, down in the bottom of their hearts?

One traveler returned—oh, yes, I can tell them about the algebra and hint to them about the astronomy, but when it comes to the plain realities of life I can't do half as much in the way of training Plain Braids and Fluffy Ruffles as the old gray cat does in the way of training her little fluffy gray and white kittens when she teaches them how to fall from the wall without getting in the least hurt.

Experience—that's the one possession that we cannot pass on to the next generation, no, not if we are willing to lay down our lives to do it.

And somehow that does seem a pity!
